BOYS AUTO CHASE

Quartet Aid Salisbury Police
to Run Down Operator of
Flivver in Exciting Race

Exeter, N. H. Man Speeded
Off After Colliding With
Another Machine

Herman L. Brun of Exeter, N. H., was brought before the Amesbury police court yesterday charged with operating an automobile while under the influence of liquor, refusing to stop when ordered to by a police officer, and speeding off after colliding with and damaging another car and recklessly operating an automobile. He was found guilty and ordered to pay a fine of \$200.

This item would probably have no local interest were it not for the fact that the arrest of Brun was brought about after a sensational automobile chase in which figured four well known Lowell young men, Sigmond Rostler, Max Goldman, George Hill and Louis Seigel.

It seems that late Monday afternoon while the four Lowellians were going through the town of Salisbury in Mr. Rostler's Hudson touring car, a young man jumped on the running board and requested the operator to give chase to a Ford touring car, which was just ahead, and which the stranger claimed had crashed into his car, and that the operator had refused to stop. "Sig" turned on the "juice" of his car and the chase started. The Ford circled around other machines, went through crowds of people and managed to make a little headway.

One of the traffic officers in Salisbury attempted to have the operator of the Ford stop his machine, but his efforts were fruitless. The officer jumped aboard the Lowell machine and when a lonely stretch of road was reached, he fired three revolver shots at one of the tires of the speeding Ford, but the shots went wild.

The Ford kept on its high rate of speed with the Hudson in close pursuit, as far as Salisbury beach and there several narrow escapes took place. Finally the Hudson got ahead of the "river" and the officer, still standing on the running board, signalled to the driver to stop, but again his order was ignored. The officer jumped from the Hudson and turned a pretty somersault. Just then the Ford collided with another machine and the operator was placed under arrest. One of the Lowell young men who figured in the chase stated this morning that it was great sport to be chasing a Ford. He said Mr. Rostler could have driven his car in front of the "river," but he was afraid that a collision might happen and that his machine would be damaged. The boys were warmly congratulated by the Salisbury police for the help they rendered.

WELCOME FOR PERSHING

Congress to Honor Him by
Joint Session; Sword and
Decoration

WASHINGTON, Sept. 3.—General Pershing will be formally welcomed at New York by a congressional committee.

The committee will consult with him regarding plans for his reception at the capital. Composing it will be Senators Wadsworth, New York, chairman of the senate military committee; Warren, Wyoming, General Pershing's father-in-law and Representative Kahn, California, chairman of the house military committee. Republican Leader Mondell, Wyoming, and Democratic Leader Clark, Missouri.

Various plans for recognition by congress of General Pershing's services were discussed today, but were deferred until the general war department officials and others are consulted. Among the proposals was a joint session of congress to be attended by leading government officials. The date of this ceremony will be left to General Pershing.

Presentation of an ornate sword and some special congressional decoration and the passage of resolutions expressing the thanks of congress for his services also were discussed.

BUTTONS FOR WAR VETERANS
The local army recruiting station still has a number of buttons issued by the war department to veterans of the world war and any Lowell soldier who served in any branch of the army during the conflict is entitled to a button by presenting his discharge papers at the local station, 317 Merrimack street.

NEW LOCAL ORGANIZER

Miss J. Macklin Beattie
Comes Here to Conduct
Community Service Work

Miss Winifred Loughbridge, for the past few months local organizer of community service work for girls, has been transferred from her Lowell position and in her place comes Miss J. Macklin Beattie, a community service worker of wide experience and exceptional capabilities. Miss Loughbridge, before coming to Lowell was intensely interested in community housing problems and had scored unqualified success in this phase of work in Scranton, Pa., and although it is not known locally where her new position will take her, it is believed that she will continue in that branch of community service endeavor.

Miss Beattie, while practically a stranger in Lowell, will be remembered as a lecturer on Panama before the Middlesex Women's club several years ago. During the construction of the Panama canal she was the community organizer for the government in that region and successfully solved a perplexing problem of creating harmony from a most cosmopolitan situation. Women's clubs as melting pots and social levelers were formed by her in Panama and her work received general approbation. During the war she was connected with the war work council of the Young Women's Christian Association, stationed at Deming, N. M.

This is her first day in Lowell in her new position and although her head is full of plans for the future of the Lowell Girls' club, none will be divulged until after conferences and discussions with members of the women's committee. She will meet the girls of the club at the regular monthly meeting to be held on Friday evening of this week and the officers are particularly anxious for a large attendance.

BIG DRIVE FOR NAVAL RECRUITS IN PROGRESS

With three naval recruiting parties in Lowell this week—each representative of one of Uncle Sam's big battleships—naval enlistments at the local recruiting office at the square are expected to eclipse all former figures. The recruiting missions from the U.S.S. Delaware and U.S.S. Virginia arrived in town today, and the party from the North Dakota, which for several weeks has been signing up boys for a cruise on the big dreadnaught, will remain here for several days to come. The Delaware contingent, consisting of six men under the command of Lieut. John O. D. Richmond, will remain here until Sept. 12. The party from the Virginia will be here for one week only, and numbers four men. Chief Quartermaster J. H. Harris is in charge.

The U.S.S. Delaware is a sister ship of the North Dakota, and is one of the super-dreadnaughts of the Atlantic fleet. During the war the Delaware was the first American ship to operate with the British grand fleet in the North sea, and was attacked by submarines on three occasions, each time escaping without injury. The U.S.S. Virginia, while not as large a ship as the Delaware, is one of the best equipped ships in the navy, and is considered a fighting machine second to none.

Two recruits for the North Dakota were forwarded from the local station today. They were Frank Mahoney, 67 South Whipple street, and James Curley, 237 Tenth street. Both enlisted as apprentice seamen.

BELGIAN RULERS GUESTS AT WHITE HOUSE

WASHINGTON, Sept. 3.—King Albert and Queen Elizabeth of Belgium will arrive in Washington about Oct. 1 and will be guests of the president and Mrs. Wilson at the White House, probably remaining three days.

The king and queen will arrive in this country late this month and will come directly to Washington to visit the president and Mrs. Wilson before beginning a tour of the country. The tentative itinerary provides for their return to New York from Washington for a public reception. Afterwards they will leave on a journey that will carry them to the Pacific coast.

Petrograd Now Menaced by British Military and Naval Forces

HELSINGFORS Finland, Tuesday, Sept. 2.—Admiral Cowan, commander of the British squadron in the Baltic, has arrived here in connection with, it is understood, preparation for an attack on Petrograd. He intends, it is said, to confer with members of the British military mission on the plans for the attack.

The Present Day Situation as it Seems to Ex-Gov. McCall

Excerpt from an address delivered today at Westfield at her 250th anniversary:

"The citizen of Westfield of 100 years or more ago led the simple life and was none the worse for it. His was an ordered life and the world seemed to roll easily in its orbit. If one wishes a contrast he has only to turn his eyes to our own time. Each morning with scarcely a look about us, even at the hills from which cometh our strength, we survey the more or less remote parts of the globe. A distant monarchy has collapsed over night and is followed by a republic that will disappear before tomorrow's sunset. The air is filled with strident voices preaching a new style of government discovered since yesterday. We now and then return to the simple life when the latest railroad strike compels us to walk. What with the world turned turtle and the sons of chaos disporting themselves over great spaces of the earth, with liberty a memory and everywhere industrial strife, class warfare, instability and unrest, it is only to the penetrating eye of faith that it seems clear whether we inhabit a world made safe for democracy or for the devil."

"Wild Man" and Fat Lady Have Strike Fever, Too

WINDSOR, Me., Sept. 3.—The actors' strike has spread to the midways of the county fairs. A "fat lady" appearing at a nearby fair last week, demanded more pay and, upon being refused, went to her home in Connecticut, saying she would stay there until the showman met her terms. Today, Joseph Ruggiero, announced by a Barker at the Windsor fair as a "wild man from Borneo" was in court. "I can't be a wild man for nothing," he told the court after saying he had asked for more money before leaving the show. "Folks throw peanuts and apples and chewing gum at me and I won't stand it unless my pay is raised." The charges against the "wild man" were adjusted and he left for his home in Boston.

John Shell at 131, Anxious to Pay Off His Mortgage

LEXINGTON, Ky., Sept. 3.—John Shell, said to be the oldest living man in the United States, today celebrated the 131st anniversary of his birth here. The aged mountaineer celebrated by taking his first automobile ride. He told friends that this is the first birthday on which he did not work, and said he was anxious to get back to his farm, on which he said there is a mortgage. Shell told newspapermen that he does not expect to live to see another birthday. "I am getting old now," was his explanation. He came from Leslie county to attend a fair.

HUB RATE \$23.60

\$2.40 Boost Gives Boston
Her Highest Tax

BOSTON, Sept. 3.—The tax rate for next year will be \$23.60, the highest in the history of the city. Mayor Peters announced today. The new levy is \$2.40 more than that of last year.

HEALTH AGENT ACTS

Urges Pasteurization of Milk
to Minimize Danger From
Typhoid Infection

In order to keep the danger from typhoid infection down to a minimum in this city, Agent Francis J. O'Hare of the board of health suggests to the public that the custom of pasteurizing milk be brought into play here for the present, at least.

It is at this time of the year that typhoid is most likely to break out, according to Agent O'Hare, and a number of cases has already come to the attention of the local health authorities. By pasteurization the danger of typhoid infection from milk is avoided.

Melvin F. Master, milk inspector, says that the best method of home pasteurization is to put the bottle of milk into a double boiler and fill the receptacle with cold water until it reaches very nearly the top of the milk bottle.

The water should then be heated and the milk allowed to remain in the water until a scum begins to form on the top or the so-called "flash" which comes across the top of the milk when it has been heated to a temperature of 164 degrees is evident. Then the heat should be turned off, the milk allowed to remain in the hot water a few minutes and then cooled off as rapidly as possible without cracking the bottle. Inspector Master suggests as a good method the removal of the hot water in the double boiler and the substitution of moderately cold water. This cools the milk off gradually and when it has returned to its normal temperature it should be put in the ice chest.

Two important things to remember, Mr. Master says, is to have the receptacle in which the milk is heated as clean as possible and also to cool it off after heating as rapidly as possible.

This is considered one of the simplest home methods of pasteurization and is found to kill any incipient typhoid bacilli as the temperature is a number of degrees higher than really necessary. Of course, people who have the proper thermometers may pasteurize milk by keeping it at a temperature of between 140 and 145 degrees Fahrenheit for 30 minutes and then proceeding with the cooling process as in the method first explained.

SECRET SERVICE IN ROADHOUSE RAID

PATERSON, N. J., Sept. 3.—Department of justice agents raided eight roadhouses in Passaic county today and arrested 13 persons on charges of selling liquor in violation of the war time prohibition law. The proprietors were held in \$1000 bail each and the employees in \$500.

COST TO BAR JAPAN FROM SHIPBUILDING

SAN FRANCISCO, Sept. 3.—Prediction that rising costs of construction eventually would prevent Japan from acting as a competitor of the United States in shipbuilding, even for her own people, was made here today by T. Hirota, manager of a Japanese shipping company, who has arrived from Kobe. It now costs \$157 a ton to build steel ships in Japan and increasing living costs are forcing up wages.

NOTABLE MEN HELP WESTFIELD OBSERVE HER 250TH BIRTH- DAY TODAY

WESTFIELD, Sept. 3.—The memory of Major General William Shepard of Revolutionary fame was honored by his home town today. As a feature of the third day of the celebration of the 250th anniversary of the settlement of Westfield a monument to the distinguished soldier was dedicated with addresses by Gov. Coolidge, former Governor Samuel W. McCall, Senator David I. Walsh and Major General Clarence R. Edwards. Several other events on the program were postponed because of rain.

The fastest trip around the world was made by John Henry Mears in 1913—35 days, 21 hours and 35 minutes.

MEXICO PAYS \$84,000 TO HEAR CARUSO

NEW YORK, Sept. 3.—Enrico Caruso, tenor of the Metropolitan Opera company, and Mrs. Caruso arrived today from Italy on the Giuseppe Verdi. He said he was under contract for 12 performances in Mexico City for \$84,000, but that if conditions were bad in Mexico he would not go there. Failure to appear, he said, would cost him \$200,000 in damages, according to his contract.

MAYOR ACTS TO REDUCE FARES

Hopes to Bring About End
of 10 Cent Carfare Within
City Zone

Submits Plan to Trustees at
Boston Today to Cut Fares
to 6 or 7 Cents

If the efforts of Mayor Perry D. Thompson are of any avail, the people of Lowell will shortly enjoy a street car fare of six or seven cents within the city zone, instead of the ten cent rate that is now in vogue.

Mayor Thompson went to Boston this noon to have a conference with the public trustees of the Eastern Massachusetts Street Railway company at 1.45 and was to present to them a plan whereby local fares would be considerably reduced. This was in response to an invitation sent out by the trustees last week to His Honor asking him to present any suggestions regarding local street car service that he might have in mind. The mayor believed that the traffic within the city limits of Lowell is sufficient to warrant a fare less than ten cents and he felt confident when leaving for Boston that his argument would have weight with the trustees.

Mayor Thompson was to ask for either a six or a seven cent rate for the city zone. With such a fare he believed that the traffic would increase sufficiently to making the project a paying venture. Local street railwaymen themselves have expressed the opinion that with a reduced fare there would be enough business within the city limits to make the proposition financially worth while for the company.

ECONOMIC CONFERENCE

Oct. 5 Wilson to Meet Men
Representing Capital, Labor
and the Land

WASHINGTON, Sept. 3.—The conference of labor, capital and agricultural interests called by President Wilson for discussion of the economic situation will be held in Washington between October 5 and 10.

The president wrote today to the chamber of commerce of the United States, representatives of the leading agricultural associations, investment bankers and to Samuel Gompers, president of the American Federation of Labor, asking that they submit nominations for delegates representing each group. After receiving this list en route to the Pacific coast, the president will then select a list of his own and combine the two. Forty or forty-five delegates will be chosen. Preliminary arrangements for the conference were discussed at yesterday's cabinet meeting. The full list of delegates will be ready, probably within a week.

CLARENCE WEED NAMED

Acting Principal of Normal
School During Year's Leave
Granted Mr. Mahoney

Clarence M. Weed, a member of the Normal school faculty and the Lowell park commission, has been appointed acting principal of the local school during the year's leave of absence recently granted Principal John J. Mahoney, that the latter may take up his duties as state supervisor of Americanization.

The office which Mr. Mahoney enters was created in connection with the legislative act of this year providing for the education of persons over 21 years of age, who are unable to read, write or speak the English language.

GERMANY TABS 100,000 AS BEING "YELLOW"

GENEVA, Tuesday, Sept. 2.—Nearly 100,000 officers and men are considered deserters from the German Army during the war, according to Munich advice. Included in this number are many thousands who were in America and England at the outbreak of the war and were prevented from joining the German army "although advised before hand to join the colors," the despatch says.

Switzerland leads the neutral countries with 40,000 deserters. A proclamation of amnesty to these men has been issued if they will return to Germany this year, but many refuse to go back, fearing that they will be placed in the ranks again because the war has permitted Germany to retain its army on a year footing until the end of 1919. The amnesty "claim" does not apply to those who are traitors.

FIFTIETH ANNIVERSARY
State Department of Health,
First in U. S., Will Cele-
brate Sept. 15

(Special to The Sun)
STATE HOUSE, Boston, Sept. 2.—
The fiftieth anniversary of the crea-
tion of the state department of health
will be observed with appropriate ex-
ercises in the state house on Septem-
ber 15 at which Governor Coolidge
will deliver the principal address. As
the department was the first of any
of its kind throughout the Union, the cel-
ebration will be in keeping with the
importance of the occasion, health au-
thorities from all over the country
having expressed their intention of
participating.

Among the prominent speakers will
be Dr. Henry P. Walcott, commission-
er of the department between 1868 and
1914, Dr. William H. Welch, director of
the school for public health of Johns
Hopkins university, Dr. A. J. Mc-
Laughlin, former state health com-
missioner and now assistant surgeon
general in the United States public
health service and Sir Arthur New-
house, formerly chief medical officer
of the local government board of Eng-
land. These men are among the
leaders of their profession throughout
the world. Commissioner of Health
Eugene R. Kelley will preside over the
meeting.

The department has had a notable
career. It was the outcome of an in-
vestigation made into the health needs
of the state by a legislative committee
in 1849. Twenty years afterward, after
lengthy agitation in the intervening
period, it came into existence.

Some of the notable achievements
of the department are as follows:
Protection of the purity of food and
medicines after the enactment of the
food and drug law.

Establishment of modern sewerage
systems as a result of investigations
by the department.

Improvement of the sanitary con-
ditions on the Charles river, which was
followed by the building on the
Charles river basin.

Creation of a system for metropoli-
tan water supply.

Building of the Lawrence experi-
ment station for the study of water
and sewerage problems.

Establishment of a laboratory for
the distribution of diphtheria anti-
toxin.

Creation of health districts through-
out the state for the improvement in
hygiene and sanitation. HOYT.

MEETING OF MEMORIAL AUDITOR-
IUM BUILDING COM-
MISSION

The memorial auditorium building
commission met late yesterday after-
noon to transact routine business. A
check for \$3698 was turned over to
the general treasury fund of the city
as the result of the sale of buildings
on the site of the proposed auditorium.
Although \$3740 was received from the
sale, \$42 of this had to be spent for ad-
vertising. The receipts will be placed
to the credit of the commission.

SCHOOL BOARD MEETING

The school board will hold a special
meeting tomorrow evening at 8 o'clock
to discuss plans for the new high
school.

The most poetically named railroad

A National Problem Solved
Pure, Wholesome Food + Nujol = Health

PURE, wholesome food is necessary, but it is not
enough. The purest, most wholesome food
will hinder rather than help health if allowed to
clog the colon—the large intestine. And doctors
agree that about 90% of our ailments are caused or
intensified by constipation.

Some part of even the purest and most wholesome
food is waste. If this waste is not kept moving out
of the body, it stagnates and breeds poisons which
saturate the system and cause or nourish disease.

The old, wrong way to attack such stagnation was to
force a passage through the impacted mass.

The new, right way to overcome it is to let Nujol
induce easy self-elimination.

And since health is as much a matter of how we eliminate
waste as of how we assimilate food-fuel, it must become evident
to every thinking person that the use of a natural, drugless
lubricant is as sensible and necessary as the eating of pure,
wholesome food.

The three vital processes upon which health is based are
Mastication, Assimilation, Elimination.

Therefore, the perfect recipe for health is thorough Mastication;
Pure, wholesome Food, and Nujol.

Try this today. Get bottle of Nujol from your druggist to-day.

For valuable health booklet—"Thirty Feet of Danger"—free, write
Nujol Laboratories, Standard Oil Co. (New Jersey) 50 B'way, N.Y.

Warning: Nujol is sold only in sealed bottles bear-
ing the Nujol Trade Mark. All other
brands are Nujol. You may refer from Nujol.

Sickness Prevention

CARSON STARTS FIGHT

Denounces Northcliffe in
Belfast Anti-Home Rule
Speech

BELFAST, Tuesday, Sept. 2.—Sir Ed-
ward Carson, in opening a new anti-
home rule campaign here tonight,
criticized Viscount Northcliffe whom
he called "the greatest absentee Irish
capitalist and the greatest example
of an Irishman who under the union
has made untold wealth in England."
"He dearly loves man hunting," said
Sir Edward. "He hunted Earl Kitch-
ener, Field Marshal Viscount French,
Viscount Jellicoe, Viscount Milner and
J. Austen Chamberlain, and more re-
cently Premier Lloyd George. I have
thought this over and believe I have
found a solution to the question. It
is to make Viscount Northcliffe prime
minister. The only disadvantage
would be that, as prime minister, he
would have to meet in parliament face
to face, those he assails and could
not attack them from the editorial
pages."

SINN FEIN SHAM

Orange Leader Says it Cloaks
Home Rule

BELFAST, Sept. 2. (By the Asso-
ciated Press).—Sir Edward Carson,
leader of the Ulster unionists, who
has come to Belfast to open a new
anti-home rule campaign, addressing
the Ulster unionist council yesterday
declared that, as far as Ireland was
concerned, Colonial home rule was the
same thing as the Sinn Fein, and that
in this respect the Sinn Fein was per-
fectly logical because in reality there
was nothing between union and sepa-
ration.

Sir Edward challenged the govern-
ment to make an unequivocal declara-
tion whether it had anything in its

JUNK BRITISH NAVY?

Baron Fisher's Plea in Accord
With New Economy Fad,
Evidently

LONDON, Tuesday, Sept. 2.—The de-
mand of Baron Fisher of Kilverstone,
former first sea lord, for the virtual
scrapping of the navy, half of which is
obsolete already, on the ground that a
big navy is not required now that
Germany has been defeated, has been
printed in all the newspapers here and
has caused a sensation. Naval ex-
perts consider that the proposal is
much too drastic and fears are ex-
pressed that there is imminent a great
fight between the advocates of a small
and a big navy.

Sir Percy Scott who, as rear admiral,
was formerly in command of the
first cruiser squadron, considers that
the larger battleship is doomed and
that money devoted to building these
ships could be better employed in other
ways. He does not, however, agree
with all of Baron Fisher's conclusions.

The campaign for administrative
economy is gaining momentum daily.

Andrew Bonar Law, government leader
in the house of commons and J.
Austen Chamberlain, chancellor of the
exchequer, came to London today es-
pecially to hold a meeting of the cabi-
net which was attended by Earl Cur-
zen, president of the council and gov-
ernment leader in the house of lords,
and George Nicoll Barnes, minister
without portfolio. Discussion centered
around national finance, particularly
on the question how much estimates
for the defensive services could be
reduced.

Answering press attacks upon Mr.
Bonar Law, Premier Lloyd George has
sent a message to newspapers here de-
claring it would be grossly unfair to
attribute continued war expenditures
to any particular member of the gov-
ernment.

Lentine's real name is Ullanoff; Trot-
sky's is Braunstein.

Doctor Tells How to Detect
Harmful Effects of Tobacco

Try These SIMPLE TESTS

New York: Doctor Connor, formerly
of Johns Hopkins hospital, says: Many
men who smoke, chew or sniff inces-
santly and who are seemingly healthy
are suffering from serious organic
ailments. Thousands of them would
never have been afflicted had it not
been for the use of tobacco, and thou-
sands would soon get well if they would
only stop the use of tobacco. The chief
habit forming principle of tobacco is
nicotine, a deadly poison which, when
absorbed by the system, slowly affects
the nerves, membranes, tissues and vi-
tal organs of the body. The harmful
effect of tobacco varies and depends
on circumstances. One will be afflicted
with general debility, or with cal-
culation of the throat, indigestion, con-
stipation, nervous depression, sleep-
lessness, loss of memory, loss of will
power, mental confusion, etc. Others
may suffer from heart disease, bron-
chial trouble, hardness of the arteries,
or the common affliction known as to-
bacco heart. If you use tobacco in any
form you can easily detect the harmful
effects by making the following simple
tests. Read aloud one full page from a
book. In the course of reading your
voice becomes muffled, hoarse and in-
distinct, and you must frequently clear
your throat, the chances are that your
throat is affected by catarrh and it may
be the beginning of more serious trou-
ble. Next, in the morning before tak-
ing your usual smoke, walk up three
flights of stairs at a regular pace, then

BRYAN TO SPEAK
HERE SEPT. 16

William Jennings Bryan, thrice a
presidential candidate and formerly
secretary of state of the United States,
will speak in this city Wednesday af-
ternoon, Sept. 15, at the First Con-
gregational church at 2:30 p. m. un-
der the direction of the Anti-Saloon
League of America and the league in
this state.
Prohibition will be Mr. Bryan's sub-
ject.
Rev. Dr. Howard H. Russell of
Westerville, O., founder of the Anti-
Saloon league and associate general
superintendent of the organization,
also will speak.

Liberty bonds as first payment on
fur coats are quite popular.

COLUMBUS CARMEN
MAKE CITY WALK

COLUMBUS, O., Sept. 3.—Columbus
awoke this morning to find an unex-
pected strike of motormen and conduc-
tors on its street car lines. The union
stated the strike had been called to
obtain better working conditions and
higher pay, but its demands had not
been made public. Yesterday the men
refused to run cars under broken trol-
ley wires repaired by non-union line-
men. Union line-men have been on
strike.

EGG INSPECTORS IN
HUB GO ON STRIKE

BOSTON, Sept. 3.—Two hundred
union egg inspectors employed by
wholesalers in the market district here,
struck today for a wage increase of
\$5 a week and recognition of their or-
ganization. Their present wage is said
to average \$13.

ROW IN ATLANTA
WOMEN'S FIRST VOTE

ATLANTA, Ga., Sept. 3.—Atlanta
women today exercised the ballot for
the first time, voting in the city demo-
cratic primary.
While the state law does not extend
suffrage to women, the primary com-
mittee decided recently to permit wom-
en to take part in nominating mu-
nicipal officers. A total of 3765 wom-
en registered, paying \$1 apiece for
the privilege, and a disagreement as
to which charity should get the \$3765
led to announcement by the women
leaders that E. C. Buchanan, chair-
man of the committee would be de-
feated for re-election.

OUTDOOR MOVIES POSTPONED

The program of outdoor movies
which was to have been held on the
South common this evening has been
postponed until Thursday evening.
The park commission will also stage a
movie program on the North common
Friday evening.

FIREMEN ON VACATION

The following members of the fire
department are enjoying their annual
vacation: District Chief Thomas F.
Saunders, Capt. Thomas F. Conway,
Capt. W. A. Dolan, Hamlin S. Gar-
ner, George J. Hurley, Thomas F. Ma-
guire, Patrick F. Mahoney, James F.
McGuinness, Patrick J. Mooney and
Herman R. Morrison.

Fine Wall Papers
Need Not Necess-
arily be Expen-
sive

It is a mistake to assume that
wall papers to be really artis-
tic and beautiful must of neces-
sity be expensive. You will be
astonished at the low prices of
the many exquisitely designed
and colored patterns made by
the Imperial and affiliated fac-
tories. Each and every one of
them is an original design by the
Imperial designers and every roll
bears the famous Imperial im-
print on the selvage.

Drop in and look around. We
will be glad to show you at your
pleasure anytime.

Leonard EAR OIL

Relieves Deafness, Stops Head Noises

It is not put in the ears, but is
"Rubbed in Back of Ears" and "In-
serted in the Nostrils." Has had a
Successful Sale since 1907.

I will forfeit \$1000 if the following testimonial is not genuine
and unsolicited:

"Dear Sir—It is with the greatest pleasure that I write you
recommending your Wonderful Ear Oil. My mother has been deaf for
over 20 years, and she used two bottles of your oil and yesterday, for
the first time in over 20 years, she heard. Her name is Mary and she
lives in the city of Lowell, Mass. I am a member of the theatrical profession
and very well and favorably known here, and you can use my name
in recommending your Ear Oil. Yours gratefully,
"ED. LAWRENCE, 2215 Hubbard St., Jacksonville, Fla."
For Sale in Lowell by Dora's Drug Store, Merrimack St., Lowell

The Bon Marche
DRY GOODS CO.

Lowell, Wednesday, Sept. 3, 1919.

OF NEW
CITIESSTIRRED
OP'S TAXI BILL

Sept. 3.—A taxi bill for the chief of Police Ellwell T. having paid to serve several witnesses for the week into the death of George B. Washburn, wife of Mrs. B. Washburn, is creating somewhat of a stir in local police circles and has been referred to Judge Warren A. Reed for a decision.

City Marshal Daniel M. Ryan decided it would be economical to send the summonses to the Warrham police to serve on the colored maid and other witnesses. Chief Smith could not locate the colored maid at Onset, and upon learning that other witnesses wanted were in Harwich, he took a taxi and served the summons on George B. Washburn. The 30-dollar automobile ride from Onset to Harwich is now the chief topic of discussion at police headquarters.

BAD FATHER GETS 6
YEARS IN PRISON

WORCESTER, Sept. 3.—Joseph N. Riel of Sutton was sentenced in superior criminal court by Judge William D. McLaughlin yesterday to serve not less than six nor more than 10 years in the state prison. Riel was tried in Fitchburg last week on an indictment charging him with assaulting his daughter, Leona M. Riel, January 20, 1919, and was convicted. Disposition was put over until today.

GIRLS GO TO PICK
VIRGINIA APPLES

WORCESTER, Sept. 3.—Miss Esther Forbes, daughter of Judge William T. Forbes of the probate court, Miss Mary Smith of 112 Burncoat street, Miss Barbara Burgess of 5 Fenimore road, all of Worcester, and Miss Amy Wheelock of Southbridge start today for Charleston, W. Va., where they are to work eight hours a day for the next six weeks with other college girls in harvesting the apple crop on a 350-acre plantation. They have set 32 barrels a day for their schedule.

THIS KID CERTAINLY
MEANT FOR MOVIES

CONCORD, N. H., Sept. 3.—Henry Smith, the 5-year-old runaway who gave the local police considerable trouble last week, again ran away from his home in Bradford early Monday evening and yesterday morning was found in a barn at Robes Corner, not far from Waterloo. The boy was clad only in pajamas when he ran away and changed his clothes in the woods. In making his escape he swam the river, and while neighbors who were chasing him were pursuing a boat to follow him he swam back and eluded them all.

NEWBURYPORT MUST
PAY MORE FOR LIGHT

NEWBURYPORT, Sept. 3.—Announcement of an increase in the price of electricity was made by the Newburyport Gas and Electric company yesterday. The new price for lighting is 16 cents per kilowatt, with 10 per cent discount if the bill is paid in 12 days. The old price was 15 cents per kilowatt, with discount of two cents per kilowatt.

The price of electric power has been raised proportionately. The company says the increase was made necessary by the increase in cost of labor and materials used in the manufacture and distribution of electricity.

CO. K OF OLD
6TH ORGANIZES

A permanent social organization, similar to the recently organized local post of the American Legion, was formed by 50 members of Co. K of the old Sixth Regiment—men who followed the colors over there until Kaiser Bill decided to call it a day—who held their first reunion since returning to God's country at the War Camp Community club on Dutton street last evening.

The following officers were elected: Eli B. Hart, president; Edward P. McInerney, vice president; Thomas Rodkin, secretary; William Carl, treasurer; and Ralph Pollard, historian.

It was voted to invite all former Co. K men to become members of the new organization, and those present were also urged to join the Lowell post of the American Legion. Meetings will be held on Tuesday nights, for the present at the War Camp Community club. It was also voted to hold a banquet on Nov. 11.

TAX ON SODA AND ICE CREAM

Newspaper headlines indicating that the tax on soda water and ice cream has been repealed have created an erroneous impression among many of the dealers who, it seems, did not read further to learn that the headline concerned only the action taken by the house of representatives and did not chance the law which is still in force.

Internal revenue agents from the office of Collector John F. Malley, in their present state-wide campaign to collect this so-called luxury tax find that many, governed by such headlines, assume that the tax has been discontinued. This is not so, as Congress has taken no such action. Abolition of the tax is contemplated, but until final action is taken the tax will have to be paid and those who fail to comply with the law will find that they are subject to severe penalties.

MINOR LICENSES GRANTED

The following minor licenses were granted at the regular meeting of the license commission last evening: Lodging houses, P. N. Garneau, 115 East Merrimack street, and at 235

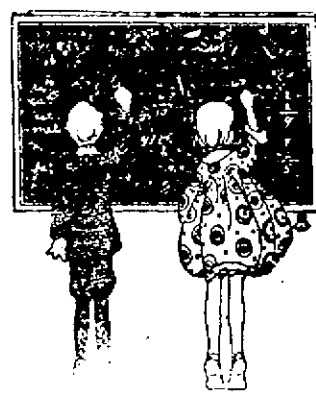

A. G. Pollard Co.

SENT TO SIBERIA

28 More Men Dispatched by
Y. M. C. A.

NEW YORK, Sept. 3.—More than 150,000 have been exported monthly by the Y.M.C.A. for supplies being rushed into Siberia for use of the 7000 American troops there. The allied military detachments, including the Trans-Siberian railroad, and the local Russian civilian population in the Kolchak government, are being supplied in Siberia and China. The Y.M.C.A. has been working in Russia and China since the war, and has been instrumental in the relief of the Russian people. The Y.M.C.A. has been instrumental in the relief of the Russian people. The Y.M.C.A. has been instrumental in the relief of the Russian people.

NEW ZEALAND RATHS
WELLINGTON, N. Z., Tuesday, Sept. 2.—The peace treaty with Germany was unanimously ratified today by parliament, after members of the labor party had criticised it.

ACTORS' STRIKE

End Soon Expected—Managers Bow to Defeat

NEW YORK, Sept. 3.—Settlement of the actors' strike within 24 hours was predicted today. A report was current that the managers' association, by a vote of 36 to 6, decided last night to recognize the Actors' Equity association, the principal point at issue, and that the Actors' Fidelity League, the rival to the equity association, had temporarily ceased its campaign for membership. George M. Cohan of the Producing Managers' Association, and Frank Gilmore, secretary of the Equity association, both said important developments were at hand. Meanwhile, the managers have announced the reopening of five theatres within a few days, strike or no strike.

LANE SENDS CONFERENCE
FOOD FOR THOUGHT

LAKE GENEVA, Wis., Sept. 3.—In a message to the New Era conference of the Presbyterian church, Franklin K. Lane, secretary of the interior, today suggested that the conference appoint committees to report on the following questions:
 How can profit-sharing be most simply and easily effected in industry?
 How far should workers be entrusted with control of managerial policies?
 Cannot a movement be started to remove large industries and small from cities into towns and villages where the workers could have their own homes?
 How may the social advantages of the city be provided in the country?
 How may illiteracy be stamped out?
 The largest railroad yard in the world is at St. Nazaire, France, built by Yank engineers.

ENGINEER'S OFFER
To Build 2½ Miles Grandstand for Big N. Y. Parade

NEW YORK, Sept. 3.—Only 5000 seats are available now for hundreds of thousands who want to see General Pershing at the head of the First Division parade on Fifth avenue next Wednesday.
 If lumber is contributed or funds are provided for it from private sources the engineering companies at Camp Mills have volunteered to rebuild the two and one-half miles of stands on the Central park side of Fifth avenue, which were torn down after the parades of the 27th and 28th Divisions.
 The Leviathan, bearing General Pershing, is due at Hoboken on Wednesday. In addition to the 22,000 men of the First Division, Pershing's pebble regiment of 3000 men will parade. This regiment is composed of one company of infantry brigade.

REINS TO HITCHCOCK

Pres. Wilson Leaves Senator to Fight Peace Treaty's Foes in His Absence

WASHINGTON, Sept. 3.—Senator Hitchcock of Nebraska, the leading administration spokesman in the Senate, was invited to the White House today for a final conference before President Wilson starts tonight on his speaking tour to the Pacific coast in the interest of the peace treaty. It was understood that the president desired to discuss with Senator Hitchcock plans for the conduct during his absence of the administration fight in the Senate for ratification of the treaty and the League of Nations covenant without change. President Wilson will leave Washington tonight on his tour of the country to urge before the American people early ratification of the peace treaty and its League of Nations covenant by the Senate without qualifying reservation. The first stop will be at Columbus, Ohio, where the president will

deliver the first of his scheduled 39 addresses Thursday. Before leaving here, he planned to issue invitations to labor leaders, financiers, manufacturers and farmers to attend a conference for the consideration of pending industrial problems. He hoped to complete all arrangements for the conference so that it could be held immediately upon his return at the end of this month. He will be accompanied on his trip by Mrs. Wilson, Rear Admiral Grayson, his physician, Secretary Tumulty, stenographers, secret service men and 30 press representatives. Although the itinerary calls for 30 set speeches in the principal cities of the west, it is believed the president also will deliver many short platform addresses at smaller towns along the route.

MATRIMONIAL

A very pretty wedding took place this morning when Mr. Joseph Telephore Dussault, a former member of Battery F, who saw 18 months' active service in France and a member of the Sacred Heart league of St. Joseph's parish, and Miss Anna Langlais, charming daughter of Mr. and Mrs. Abraham Langlais of 26 James street, were united in the bonds of matrimony.

mony, the ceremony being performed at 8 o'clock this morning at a high nuptial mass celebrated in St. Jean Baptiste church by Rev. Charles Denton, O.M.I., spiritual director of the league. The bride was handsomely attired in baroness satin and georgette crepe and carried bridal roses. She was given away by her father, while the groom was also attended by his father, Mr. Telephore Dussault. During the mass special hymns were rendered by the Sacred Heart league choir, while Miss Yvonne Montmarquet rendered Millard's "Ave Maria." Mr. Napoleon Milot, Jr., sang an "O Salutaris" and after the elevation the choir rendered "Agnus Dei," the solos being sustained by Miss Anna Martel. At the close of the ceremony the bride party repaired to the home of the bride, where a wedding breakfast was served. Mr. and Mrs. Dussault left on the 1:47 o'clock train for Boston and this evening they will take the boat for New York. Upon their return in ten days they will make their home at 26 James street. A few days ago Mr. Dussault was tendered a bachelor party by a number of his friends and as a token of esteem was presented a purse of gold and a handsome smoking set. In the course of the evening a varied entertainment program was given and refreshments were served. Those who participated in the festivities were Omer Allard, Eugene Cloutier, Arthur Langlais, George Langlais, Joseph Rousseau, Joseph Martin, Elphege Phaneuf, Theodore Letourneau, Horace Bergeron, Philippe Grandchamp, Thomas Minault, Joseph Paquette, Theophile Larue, Albert Perreault, Ubald Allard, George Milot, Emile Milot, Napoleon Milot, Jr., Emile Lamoureux, Arthur D. Lamoureux, Leo Giroux, J. B. Salvus, Joseph Tardif, John Mathieu, Joseph Schiller, Athanasie Groselin, D. Chapdelaine, Arthur Geoffroy, Luther Bedard, Emile Beauchemin, Palda Roux, Arthur Lirette, Joseph Soucy, Telephore Dussault, Tanerode Dussault, Euclide Damphousse, Nee Traban, Arthur Labrecque, Louis Lafontaine, G. Fournier, George Bourgeois, Eugene Grandchamp, Geo. Dureault, Arthur Fayer, Emery Racette, Henri Roy, J. A. N. Chretien, Ernest Gagne and others.

BOARD OF TRADE OUTING

Frank H. Pope, Commissioner of Small Loans, to be Speaker

Frank H. Pope, former state auditor, at present state commissioner of small loans and considered one of the best equipped after-dinner speakers of this section of the country will be the principal speaker at the big outing to be held by the board of trade tomorrow at the Genoa club in Tyngsboro. It was announced today. Mr. Pope will deal with a topic of timely interest and the announcement

of his presence adds another attractive feature to the already extensive program outlined by the board's outing committee.

Members of the organization will leave the city by automobiles or special electric shortly after noon and upon arrival at the grounds will enjoy a buffet luncheon. The afternoon will be given over to a series of sporting events and prizes will be awarded the winners. A ball game between the fat and lean men with Congressman Rogers at the helm of the stout players will be another feature of the afternoon.

At 5 p. m. a big dinner will be served and thereafter will come the address of the occasion. Mr. Pope, Congressman Rogers and several other prominent officials are scheduled to speak. An exceptionally large number of members have expressed their in-

terest in enjoying the board's first outing since 1915 and everything points to a most successful affair.

INJUNCTION HEARING

The joint hearing on the petitions of the Federal Shoe Co. and the L. H. Spaulding Shoe Co. for an injunction to restrain the members of the Allied Shoe Workers' union of this city from doing picket duty around their plants, which was started at the local court house yesterday, was resumed this morning with G. A. A. Pevey of Cambridge acting as master. In the course of the day several witnesses were questioned by Edward J. Tierney, counsel for the petitioners, and cross examined by D. J. Donahue, counsel for the shoe workers.

In most Chinese cities the finest shops are those devoted to the sale of coffins.

WILSON'S

League in Treaty
"Plain People"

HOWARD TAFT.

concerned, depends on the question, What is the scope of the treaty-making power?

Now, whether the league be constitutional or not depends upon the construction that should be put upon it. The objectors to the league, many of them, say that it creates a super-sovereignty, an over-government, a managing directorate in which the delegated powers are given that only can be exercised under our constitution by Congress. There might be such a league; there might be such a league as France desired to have in which there would be a managing directorate with a chief of police, so that Chief of Police Foch, bearing of a disturbance in one part of the globe, could send word by cable to his superintendent there. "Take twenty thousand men, go over and suppress that disturbance, and put out the fire." France was anxious to have it, because France wanted an arrangement by which Foch could order to the German frontier at once on any threat of German attack on France, half a million men, and her delegates argued strenuously before the conference in favor of such an arrangement. But the other nations declined, and our representatives declined, because they said: Not only do we object on the grounds of expediency to parting with sovereignty such as that would be, but we have not the power under the constitution.

The league which I have described is not the league that is now presented for our consideration and adoption. What is it? It is only a partnership agreement. It is an agreement in which the partners agree to co-operate. It is written in the covenant what they shall do under the obligations so described. The circumstances under which these obligations arise are stated in the covenant; and it is for each member of the league necessarily to construe its own obligation, to determine how that obligation shall be performed, and then to perform it, itself, and not through any agency except its constitutional and normal agency to do the thing which it has agreed to do. I think if you study the league you will find that it is the condition. It is said that the council is the managing body; that it is the super-sovereign. There is no function to be performed by the council that is not advisory. The expression "to deal with" occurs once or twice, but you will find that expression refers rather to the scope of the subject matter to be considered in the meeting, of which all members must take notice so as to be there, and that the description of the functions

A DISCOVERY THAT
BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named Malted Milk. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

Ask for HORLICK'S—Avoid Imitations

of the council itself is contained in the words "recommend," "advise," and "propose."

Upon these words and the construction of these words must depend what the function of the council is. Those who object on the ground that that is super-sovereignty maintain that "recommend" means "command," that "advise" means "direct" and that "propose" means "order." I submit on the face of it that that is a strained construction of the words, and that nothing but a most unusual context in each case would justify such a misinterpretation of the words according to their ordinary meaning. And when you consider that this league is a league not under a supreme court which has the power over every member to compel it to render its affirmative duty, but that this must depend upon the spirit of co-operation, and that each nation must determine for itself its meaning, the construction by us will certainly be reasonable.

FAILS FOR TITLE LOSSES FORTUNE

LONDON.—Because he failed to attain the title of baronet or a higher honor, the son of the late Charles William Wallace, former Indian merchant, is bereft of a legacy amounting to more than £250,000. Wallace stipulated in his will that his estate valued at this sum should go to the British and Indian treasuries in the event that his son failed to be honored.

It is estimated that 407 airplanes took part in the German raids on England.

MERRIMACK STREET BASEMENT

Experts or Theorists—
Which?

The packing industry is intricate, complex—far more so than the railroads or the telegraph.

Every day multiplying needs of society increase its problems and multiplying responsibilities demand more of it.

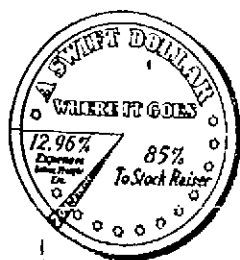

Highly trained experts, specialists of years' experience, thinkers and creative men, devote their lives, their energies, their activities, to solving the problems of the packing industry and meeting its widening duties.

Swift & Company is not a few dozen packing plants, a few hundred branch houses, a few thousand refrigerator cars, and a few million dollars of capital, but an organization of such men. It is the experience, intelligence, initiative and activity which operates this physical equipment.

Can this intelligence, this experience, this initiative and creative effort which handles this business at a profit of only a fraction of a cent per pound from all sources, be fostered through the intervention of political theorists, however pure their purposes? Or be replaced by legislation? Does Congress really think that it can?

Let us send you a Swift "Dollar".
It will interest you.
Address Swift & Company,
Union Stock Yards, Chicago, Ill.

Lowell Local Branch, 572 Dutton Street
J. E. Wolf, ManagerMILLBURY GIRL WEEPS
TELLING HOME STORY

WORCESTER, Sept. 2.—Millbury yesterday provided a pathetic incident in the central district court when pretty 16-year-old Arthe N. Ettlene of that town was principal witness against her father, Charles Ettlene, 55 years old, who was accused of beating her mother to such an extent that she was obliged to leave home.

The girl is an only daughter and her father insists that she should go to work in a mill, while the girl is making every effort to provide herself with a business college education. "And," she told the court, "I will go through with it, and before long I will be able to care for my mother." The girl wept while on the witness stand.

MALDEN DOES BIG
MARRIAGE BUSINESS

MALDEN, Sept. 2.—Malden broke all her old marriage license records and established a new one yesterday, when 14 couples proudly walked up to the city clerk's desk and obtained the permits to be married. City Clerk Leverett D. Holden said it established a record and broke all the other records in the city.

"Calculate the three days' vacation Saturday, Sunday and Monday (Labor Day), that most people had given those 14 couples a chance to talk matters over and they decided on the spot for life. People are not struggling for a living as they were once, and while the high cost of living is a problem, yet most people are getting along comfortably and some are prospering, and these 14 applications for permission to wed prove it," said the veteran city official.

TOWNS IN LIGION
PARIS.—The cities of Douai and Cambrai, famous battlefields in the world war, were decorated with the Legion of Honor. This is a rare occurrence as this honor goes in most instances to famous persons.

EASTPORT HOPES SHE
MAY AID THE H. C. L.

EASTPORT, Me., Sept. 2.—A possible relief to the well-known high cost of living may be in the enormous catches of large-sized herring in local waters here. The largest catches of the entire year have been made here in the past two weeks.

As a result of the large supply of fish the local canneries have been compelled to work until 10 o'clock at night, and even under these conditions they are finding it difficult to handle the fish which come in every day.

PAYS HUGE TAX TO U. S.

SEATTLE.—Paying one of the highest excess profit taxes assessed a foreign corporation doing business in the United States, the Nippon Yusen Kaisha a few days ago forwarded a check for \$2,941,000 to the internal revenue department. The check was in payment for excess profits from all business done in the United States during the year 1918.

LEMON JUICE
TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and use a quarter pint of the bleaching lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

TREASON CHARGE

PARIS.—The little court-martial, which recently sentenced the informer Richard to death, now has before it five women, four of whom are from 20 to 33, while the fifth is 52. The confession of one of them shows that

they denounced soldiers and civilians wholesale, besides giving information as to hidden stores of wheat, oats and wine.

Gold coin is "peppered" with the mineral Iridium to keep it from being melted down.

TAKE HEED WHEREWITH WE SHALL BE VEILED!

BY BETTY BROWN

NEW YORK, Sept. 2.—"Coco" and "Sonnet" and "Fan-see" and "Tani," "Lalla," "Jingle," "Sunburst," "Sparkle"—these are just a few of the names that have been drawn upon to designate the new veils that fashion has approved for autumn.

They are all wonderfully attractive, each is a real novelty and each of the above at any rate was especially designed with a view to emphasizing some particular phase or characteristic feature of facial beauty.

"Pam," for instance, is expected to have an affinity for the square type of face and to provide a fitting screen for large eyes and large mouth, providing and this is important, the lips are smiling ones. "Pam" positively is not for sneers or frowns for the large diamond-shape of the pattern save to frame these features individually, making of each a separate picture. The fine mesh, however, in contrast to the heavier lines has a tendency to

"Oban" is the combination scarf and veil which protects the hat and face and warmly swaddles the throat, with enough left over for a gracefully draped cape effect. The Sonnet veil supplies the popular "After" type of mesh and is made to wear in curtain effect with large hats.

soften the outline of the features in general and cast a becoming haze over the complexion.

So, then, if the complexion is not quite all that one's complexion should be, "Pam" makes believe it is.

Then "Bab," "Bab" is irresistible, especially with one of the new "Missy" hats. This veil has a half-inch square mesh formed of double threads with tiny solid squares at the corners. It is a peculiarly practical and durable veil into the bargain.

One of its interesting points is that

it is very generally becoming perhaps especially so in blue—and the liking for blue veils has not abated. It comes, however, as do most of the veils this fall, in a goodly assortment of colors.

"Oban" is a surprise veil. In the first place it is a sort of a combination choker or scarf and veil. It is not square as might be inferred from the picture but considerably over a yard long so that after it has served its primary purpose of shielding the face and protecting the hat from autumn's

breezes it hugs the throat with the becomingness of a high stock and then drapes itself gracefully in cape fashion over the shoulders.

This "Oban" comes in various color combinations. One of them is a sort of khaki color with a finished top edge and a four-inch border across the lower edge and ends. The mesh is large hexagonal and strong while the border is solid with a perforated pattern which shows up plainly by virtue of a foundation of solid navy blue.

There are several new veils of the "Sonnet" family, most of which are designed for wear with large hats or small and draped or tight. They have a square mesh composed of single threads with here and there a figure composed of filled-in squares. The border, then, is a pretty scroll design similarly evolved by solid squares. It is very reminiscent of the old samples. They are very distinctive, these "Sonnet" veils and bound to become favorite, I venture to say.

United States by enemy propagandists that the men were drugged before going over the top and said the only stimulant the men got was a glass of rum, and that only after 24 or 36 hours of continuous service. The lecturer used a blackboard to illustrate his talk and his address proved both interesting and instructive. He chalked the strategic advances and retreats of allies and enemy, the construction of the trenches of both and the positions of the fighting units and reserves.

Fr. Fortier went through the inner history of the ranks and told of the work of every department from the general to the private soldier and paid a glowing tribute to the Canadian soldiers. He described the balloon and observation work, the taking of pictures and the plotting of maps and related some of the hardships of the war. The speaker was introduced by Rev. Eugene Turcotte, O.M.I., pastor of St. Joseph's.

AMUSEMENT NOTES

Below is what the press agents of the different theatres say of the current attractions and of others to come:

THE STRAND

Today offers the last opportunity of seeing Dustin Farnum in his latest, and by many considered his best picture, "A Man's Fight" in which the star reflects his versatility to writer and more pleasing advantage than ever before. Then there is Gladys Leslie, one of the recent stars in England, in her latest picture offering, "The Girl Woman." The usual comedy and excellent weekly contributions to a bill of exceptional value. The Pony Cart shows a new leader this week when Robert Carr, Jr., jumped to the front over Walter Schoen. It's getting mighty interesting.

Beginning tomorrow and continuing throughout the remainder of the week will be seen the great Japanese favor, Sessue Hayakawa in "The Man in Her Most Dangerous Moment." "Saetan Junior." There will also be a new comedy and weekly. Remember the Douglas Fairbanks in "His Majesty, the American," will appear week of Sept. 12.

R. F. KEITH'S THEATRE

"Lure for Rehearsal," which is Emily Darrell's title for her perfectly made monologue at R. F. Keith's theatre this week, is funny, every minute. Miss Darrell has struck a vein of comedy that is all her own. Eva Taylor & Co. in the new satire, "Virginia Rye," do some very quick playing. The piece, which is the work of Lawrence Grant, demands very fast action. Two uncommonly good dancing and singing boys are Foley and O'Neil, and the Canton trio give oriental cleverness that is all new. Southe and Tobin sing prettily, Florence Duo does some interesting magic, and the Five Princeton Girls sing and play violin.

LOWELL OPERA HOUSE

Crowded houses at every performance and big advance sale of tickets for the remaining presentations of the week, demonstrate very effectively the fact that the new Emerson Players, winning general favor with the theatre patrons of Lowell and vicinity in their formal opening of the fifth season of stock here. "The Country Cousin," the vehicle of introduction in which the members of the company are presented to the local theatre folk, is a decidedly good selection, for it offers rare opportunity

Taking BOVININE regularly for at least a week as directed on the label, will make a noticeable change in any member of the family who has not been feeling well lately.

Since 1877 BOVININE, the Food Tonic, has been known and recommended by physicians everywhere. Your druggist has it.

THE BOVININE CO., 75 W. Houston St., New York

for each and every one of the engaging cast to reflect evidence of ability. Miss Fields, the leading woman, and John Meehan, the leading man, are seen to particular advantage, and their support could hardly be improved. Miss Fields' dramatic endeavors, in the third act particularly, are praiseworthy, while Mr. Meehan's treatment of the role of the stiff, slow-thinking Englishman, is commendable. Miss Knowles, Mr. Crane and the others are all deserving of special mention. The piece is staged remarkably well, and taken all in all, the production is quite on a par with anything that stock has produced in these parts in seasons. Tickets for the remaining performances should be secured early to avoid disappointment. Matinees daily excepting Friday.

ASST. CITY CLERK AT SALEM, WOMAN

SALEM, Sept. 3.—Miss Martha Orlis Howe has accepted the position of assistant city clerk, filling the vacancy caused by the resignation of Miss Mary W. Reeves, who held the position 27 years.

Miss Howe served for 12 years as clerk in the city clerk's office and later for a long period filled the position of secretary to the school committee. Miss Reeves is the daughter of Mrs. Mary E. Reeves, widow of Robert

SKUNK FINDS H. C. L. AT HOME OF PASTOR

FRANKLIN, N. H., Sept. 3.—Rev. Carl D. Skiffin, pastor of the Congregational church, returned from his vacation yesterday and found that a skunk had entered the parsonage cellar during his absence.

Armed with a shotgun he went down to kill the skunk, firing at the animal and then approaching only to learn that the visitor had died of starvation, and was dead when he fired.

TAPPED SHOW'S TILL GIVEN 18 MONTHS

RUTLAND, Vt., Sept. 3.—Frank Smith yesterday sentenced in Rutland county court to 18 months at the Vermont state prison at Windsor for stealing some \$300 in silver coins belonging to John Dines, proprietor of the Dines' Show at Freetown. Smith, who is only 20 years old, will begin serving his sentence immediately. He admitted his guilt.

VT. BOTHERED BY HAIR TONIC JAGS

BURLINGTON, Vt., Sept. 3.—Because the traffic in hair tonics has grown to an enormous proportion in this city since the demobilization prohibition measure went into effect, District Attorney V. A. Bullard announces that he will give a jolt to the business from which it would never recover.

Seekers of booze have found hair tonics. It is charged, a very satisfactory method of getting results, and are said to have bought in enormous quantities.

Attorney Bullard stated yesterday that he had the data already in his office, and was ready to slam, right and left as soon as things are ripe.

Mr. Bullard further stated that government men have been on the alert throughout Vermont, and had the evidence which would block any defense along the lines that the goods were sold for medicinal purposes. The amount sold by some wholesale drug

concerns would make such a defence absurd. The action to be taken in regard to the sale of the so-called remedies for falling hair may also apply to cures for dyspepsia, which contain a large percentage of alcohol.

The booze seekers in Vermont have quickly become aware of the preparations which contain the most alcohol, and have gone after them in droves, with the result that some so-called remedies were sold out long ago.

SOCIAL AND FRATERNAL

Five new members were initiated and several applications for membership were received at the regular meeting of the members of the Ladies' auxiliary, A.O.U., which was held last evening. A list of routine business was transacted and it was announced that plans for the banquet in observance of the 25th anniversary of the organization, which will be held in the near future, were progressing. It was stated that the national president of the organization had accepted the invitation to be one of the speakers at the banquet, while other notable speakers will also be secured for the occasion. The delegates, who

recently attended the state convention rendered a very interesting report of the doings of the convention.

LOWELL AERIE, F.O.E.

An interesting meeting of the members of Lowell Aerie, F.O.E., was held Monday night in their hall in the Harrington building, Central street with worthy President David J. Hackett in the chair. Fifteen new members were initiated and 12 applications for membership were received. A report from the grand aerie convention at New Haven showed that the entire membership of the Eagles throughout the country is more than 600,000 with Lowell in eighth position.

The committee in charge of the coming outing reported that everything is going along smoothly and that it is expected that the event, which will be held at Willow Dale will be one of the best in the history of the organization. It is expected that several state officers will attend the picnic.

INTERESTING WAR TALK BY REV. FR. FORTIER

Standing room was at a premium at the C.M.A.C. hall last evening when Fr. Fortier, O.M.I., of Ottawa delivered a lecture on the world war. The distinguished clergyman and soldier came to Lowell as the guest of the Oblate Fathers of St. Joseph's parish and the general committee in charge of the welcome home celebration for the local, French-speaking soldiers and sailors, which was held Monday. He delivered the sermon at

LENGTHEN WORLD SERIES

National Commission Pro-

poses Increase to Nine

Games Instead of Seven

CHICAGO, Sept. 3.—Because of the unprecedented demand for world series seats this fall the national baseball commission yesterday recommended that the series be increased to nine games instead of the usual seven.

The proposal was sent last night to the club owners of the American and National leagues for immediate ratification.

Under the proposed plan, the players of the rival clubs would share in the receipts of the first five games instead of the first four, as in previous years. The victorious team would have to take five of the nine contests to win the championship.

Heretofore the championship was decided when one of the clubs won four of the seven contests. The plan would divide the apportioned share of the five-game receipts or a 50 and 40 per cent basis, 50 per cent going to the winning club.

August Herrmann, chairman of the commission, explained that the recommendation was made for no other reason than to benefit the public by permitting a larger number of persons to see at least one of the games. Although the Cincinnati club has not clinched the National league pennant, Chairman Herrmann, who stated it was the intent of the Reds, said he had received 22,000 applications for seats.

"There are more than 100,000 persons in Cincinnati who want to see the series and it will be an impossibility to accommodate a third of them under the seven-game plan," he said. "The city is baseball mad. It seems that the entire south is planning on coming to Cincinnati if we are so fortunate as to win the National league flag."

Chairman Herrmann announced that plans for the series would not be made until the pennant races are definitely decided, which probably will not be for 10 days or two weeks.

Club owners of the National and American leagues will not draft star players from the minor leagues this fall. This was decided last night when the national baseball commission recommended that the privileges of the draft be suspended for 1919 because of the "uncertainty now existing" between the major and minor leagues of the country.

The commission ruled, however, that the major league club be permitted to continue the purchase of players if suitable arrangements could be made with the minor league clubs.

BECKETT WINS

Knocks Out McGoorty in 17th Round—Fulton Lands

LONDON, Sept. 3.—Joe Beckett, the British heavyweight champion, knocked out Eddie McGoorty of Oshkosh, Wis., in the 17th round of their scheduled 20-round fight here last night.

Fred Fulton, the American heavyweight, battling at the Olympia last night, knocked out Arthur Townley of Southampton in the first round.

SOX HAVE PENNANT ICED, KID GLEASON SAYS

"Detroit's gone, Cleveland's pitchers are easy for us, Jimmy Burke has a good ball team but is too far away, and the best of the league doesn't worry us in the least," said Kid Gleason, leader of the leading White Sox of Chicago.

"My team is in the shape now—better than it has been all season. Williams and Cicotte are at their best," he continued.

"Last time we went east I had seven men in straps and yet you know what we did. We'll do lots better this time."

"There's nothing to it now. There's no chance for us to lose."

"It's the American league flag and then the world's championship."

There is nothing to disprove his assertions. Cleveland tried to beat Eddie Cicotte, his pitching ace. A week day crowd of 2,000 fans rooted for the Indians. The Indians performed spectacularly in the field. All the breaks were theirs. Slim Caldwell pitched a beautiful game for seven innings. And then—the inevitable crash.

You can't hold the White Sox down. Eddie Cicotte probably is the coolest boxman in the game today. The longer he pitches the better he goes. It was his 25th victory and he seemed to have as much speed in the elbow and ninth innings as Walter Johnson uses.—Fred Turbyville.

FISH AND GAME CLUBS

This Year's Outing Expected to be Best Ever

Plans have been made to make the annual outing of the Lowell Fish and

Game association this year the best in the history of the organization. The event will take place at Willow Dale on Sept. 23, according to a report made at the regular meeting of the association last night. President Simon B. Harris presided and the outing committee reported through its chairman, William C. Purcell. The fishway situation was spoken of by President Harris and Willis Holt reported for the re-stocking committee.

The following new members were favorably reported upon: Hector Chelle, Chester W. Hibbs, James Senne, Charles J. White, J. Frederick Buckley, Edward Fallon, E. B. Currier, Herbert E. Ellis, F. S. Lyon, J. V. Carey and Bernard Mcardel.

LOWELL DOG WINS PRIZES
At the dog show at Canobie lake, Labor day, a Scotch collie puppy, 11 months old, named Solvay, owned by Timothy D. Finnegan of Agawam street, won four ribbons as follows: First (blue) in the puppy class; first (blue) in the open class; first (blue) American bred, and white, winners reserve.

The Call'em

The pennants in both major leagues practically are won, and unless the bottom drops completely out of the scheme of things, the Moran's Cincinnati Reds will meet Kid Gleason's Chicago White Sox in the October classic to decide the world's premier baseball honors. The American league leaders are running true to pre-season form and hope. The White Sox looked the class of the junior circuit in the pennant race.

They were a team substantially the same as the combination which whirled through to a world series last year and although other clubs strengthened, the additions didn't seem to pan out in a career style. Eddie Cicotte and Lefty Williams must go the long share of credit, although Ray Schalk must come in for

credit of the compliment pie. On the other hand and in the other league, Gleason was oh, so different. The Giants were picked to repeat all the stars in sight they were set down as an odds-on favorite. But Pat Moran, knee-high to a watermelon, and his wooden-headed team, which extended for more than three or four games and what is more, they have followed every ten-penny slump with a winning streak of four, five, six and seven games. Which team will enter the big "battle" the favorite is hard to tell. It may be the White Sox, with Cicotte and Williams, and the hitting strength of Jackson, Collins and Schalk, or it may be the Reds, with the wonderful effectiveness of Ther, Sallee, King and Luque, the backstopping of Wilson and Hartigan and the front-line attack. Sentiment will be with Cincinnati.

School Spirit and Support

Coach Jim Conway of the high school has taken a determined and most commendable stand on the coming football situation when he says in substance that the school can have a football team this fall and a good one, if the pupils want it. He leaves it to them. Any athletic team needs two things: Interest to the point of participation by enough men to allow for careful selection from a good sized squad and enthusiastic and constant support from the undergraduate body. It is hard to say which is more essential. A good team will peter out to a shaver if the members feel the school is not behind them, while a good team is impossible unless a lot of fellows come out for it.

Schools have the size of Lowell high send out football squads of 50, 60 and even 75, and there is no reason why this city should not do it. It's a fairly safe bet that the school committee will sanction the sport and it

now rests with the boys of the four classes.

Cum Laude

Baby Ruth's approach to the world's home run record is being taken over a path strewn with rose petals. When he saw Monday's game in Boston when he drove out his 25th circuit crown, Babe was a rare thing and seldom, if ever, equaled on baseball field. They cite the battles of Larry Doyle's hit and won the world series for Boston in comparison, and say Monday's wild outburst had the shade of seven years ago completely of an almost unheard-of thing in professional baseball that fang feel the competitive and appreciative spirit to an extent which raises them on to their shoulders and carries him off in triumph, but this is just what happened Labor day.

What Rivalry Intense

Every year a number of small towns in New Hampshire and Vermont, along with late August or early September, stage rival series among themselves which produce just about the acme of enthusiasm. At present, Rutland and Newport, Vt., are staging such a baseball feature and the games now stand one each. The winner must appear out of five. A week ago last Saturday, Newport won, playing against Marlboro, Scott and Bozokel of the Braves, wearing Rutland uniforms. Last Saturday, Rutland, with Pol Peritt pitching, Mike Hayden catching, Bob Clark playing first base and Henry Sullivan in the outfield, scored out Newport by one run. Why not call the teams the Braves and Lewiston, and be done with it?

Kloby's Next Opponent

Paul Doyle was mentioned as the best man to beat face Young Kloby, until along came Barney Adair of New York, to seriously gum up Paul's chances. Now Mel Coogan bursts into the spotlight and outboxes and out-

Knights Adair, who means beat Coogan, the logical contest.

ST. PETER'S ABBOT C

The St. Peter's A. strong Abbot Worcester Granville labor day the score of 5 to 3 in winners pounded the no to all corners of a flank Garvey held the six hits and did not is balls. The hitting and glass and the fielding of Harrington featured. St. play the Boston & Maine next Saturday.

AVATEIR BASE

The Victors defeated the Monday at Lincoln park by the of a 4 to 3. Brand opposed Wells. The victors defeated the St. Peter's S.S. Labor day, 11 to 8. Next Saturday the teams meet again for a \$25 purse. Games with the Wanderers may be scored from Mgr. Cahill at the club rooms in Whipple st.

LOOK GOOD TO ALABAMA'S SENATE

MONTGOMERY, Ala., Sept. 3.—For a second time the state senate refused yesterday to ratify the federal woman suffrage constitutional amendment. A motion to ratify was defeated, 13 to 13, after a debate of two hours.

LOWELL POLICE IN HAVERHILL

The Lowell police baseball team went to Haverhill today to play a reunion with the police department team of that city. The trip was made by automobiles and several members of the city government accompanied the players.

Camel CIGARETTES

Camels are a Cigarette Revelation!

Most critical, exacting smokers declare that such smoothness, such mild, mellow body and such refreshing flavor as Camels supply so generously never before have been put into a cigarette!

Every puff on Camels proves a greater delight!

Your fondness for Camels continually increases; *they never tire your taste!*

That's because Camels have the quality and because they are an expert blend of choice Turkish and choice Domestic tobaccos.

Camels blend is so unusual, so appealing to your best cigarette desires *you'll prefer it to either kind of tobacco smoked straight!*

Compare Camels with any cigarette in the world—*quality, enjoyment, price*—to realize that Camels are made to meet your taste.

And you'll appreciate Camels' freedom from any unpleasant cigarettey aftertaste or unpleasant cigarettey odor.

Once you know Camels you'll certainly prefer their quality to coupons, gifts or premiums.

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

VENIZELLOS TELLS WILSON

STILL STRONG FOR LEAGUE

WASHINGTON, Sept. 3.—Premier Venizelos, of Greece, in a letter to the American ambassador at Paris, made public today by the state department, denied reports published in America that he had publicly stated his loss of confidence in the League of Nations because of the American attitude with regard to Thrace. He asked that President Wilson be advised that he had undergone no change of sentiment with regard to the proposed world society.

MADE MONEY IN JULY

For First Time, Road's Business Showed Profit Instead of Deficit

WASHINGTON, Sept. 3.—For the first time in many months, government operation of the railroads in July showed a surplus of a deficit.

Director General Hines announced yesterday that preliminary figures of the month's business indicated net operating income of \$77,000,000. After allowing one-twelfth of the annual rental due the railroad companies, the net gain is about \$2,000,000, as compared with a deficit of \$22,000,000 the preceding month, and \$65,000,000 in February, the largest deficit of the year. The net loss to the government for seven months is \$290,525,507.

In calculating the surplus, however, no account was taken of the wage increase offered the shopmen, which has not been accepted by them. It has been estimated that the four cents an hour advance would amount to about \$45,000,000 a year. As it is retroactive, the surplus for July may become a deficit of approximately the same amount.

Mr. Hines pointed out that the falling off in freight business continued to be a big factor in the railroad administration's finances, although business has grown steadily since February. As compared with July, 1918, the decrease in operating income was about 44 per cent.

The freight traffic was about 25 per cent. larger than the average July of the three-year test period, on which the returns to the roads are computed, but expenses were greater. The increase amounting to \$175,000,000 or about 95 per cent. much of it in wages. Passenger traffic also showed a substantial increase.

REGISTRATION SESSION AT CITY HALL, SEPT. 10

The board of registrars will hold the first registration session of the season at their office in city hall one week from today, Wednesday, Sept. 10, from 2 to 4 and 7 to 3 p. m. for persons claiming the right to vote at the coming state primaries, Sept. 23. Applicants must bring with them their tax bills and naturalized persons their final papers. Registration will also be held on the following dates: Thursday, Sept. 11; Friday, Sept. 12; and Monday, Sept. 15. The hours on these dates will be from 2 to 4 and 7 to 3 p. m. On Tuesday, Sept. 16, registration will be from 2 to 3 p. m. continuously.

charter has already been received.

The tax books for which the municipal council voted money some time ago will not be published until November, according to the board of assessors. The publication of these books entails considerable detailed work.

The annual convention of the American Institute of Criminal Law and Criminology, which started in Boston yesterday, will be brought to a close this evening. In attendance from this city is Edmund J. Cheney, agent for the Massachusetts bureau of prisons.

John H. Murphy, treasurer of the Morris Plan bank, Mrs. Murphy and Mr. and Mrs. Frank J. Campbell have returned from a 1200-mile automobile trip through the mountains of New Hampshire, Vermont and New York. The trip was a most pleasant one as the entire distance was covered without the slightest mishap.

At the close of the open air mass which was held on the grounds of the French-American orphanage in Paxton street Monday, the children of

the institution were given a treat in the form of ice cream, cake and tonic, the beverage being supplied by L. F. L. Turcotte, proprietor of the Coca-Cola Bottling company, to whom the little ones are very grateful for his gift of 15 cases of assorted tonics.

Capt. J. M. Caisse, M.D., of Vergennes, Vt., was today the guest of his cousin, Dr. George E. Caisse of Merrimack street. The captain, who saw 11 months of active service in France, first with the Engineers and later with the Medical corps, is now stationed at Camp Devens and expects to be discharged from the service within a few days. His home is in Vergennes, but as soon as he returns to civil life he will open an office at Newburyport.

Mr. and Mrs. Theodore Rochefort, the former employed as a janitor at the Sun building, are rejoicing over the birth of twins, a boy and a girl, which took place at their home, 15 Ina street Saturday.

TWO SLIGHT FIRES

An alarm from box 12 at 8:17 o'clock this morning summoned a portion of the fire department to the corner of Moody and Worthen streets

for a slight fire in the engine of an automobile truck. The damage was slight. At 1:53 o'clock this morning there was a telephone alarm for a slight fire in the coal pocket at the police station. No damage.

Trees which grow on the northern side of a hill make more durable timber than those which grow on the southern side.

To Discard Freckles, Tan, Pimples, Blisters

The use of creams containing animal grease sometimes causes hair to grow. You run no risk of acquiring superfluous hair when you use ordinary mercurized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle—gradually, gently, so there is no detention indoors and no inconvenience. The discolored complexion naturally is replaced by a clear, smooth, healthy one—full of life and expression. It's the sensible way to get rid of a freckled, tanned, aver-red, blotchy or pimply skin. Just procure an ounce of mercurized wax at any druggist's and apply nightly like cold cream, erasing in the morning with soap and water. It takes a week or so to complete the transformation. Ad.

SOARING PRICES REACH BREAKING POINT

N.E.A. Washington Bureau

WASHINGTON, Sept.—From every part of the United States the evidence is pouring in that the cost of necessities has reached its high limit and that from now on the decline is to be expected.

"Authorities, save a few doubtful publicists of Wall street, are agreed that the end is in sight. A gradual return to normal is hoped for, since anything abrupt would carry the menace of panic. Prices may not return to where they were five years ago, but the disconcerting upward trend is gone with, experts say.

Public's Attitude Big Factor

Credit for bringing about this hopeful condition is widely distributed. Official action has had much to do with the average buyer at retail. The public's disposition to combat high prices, and not to be intimidated by threats of further increases, has had its sure effect. And the fight is not finished.

"The reports we receive from all parts of the country are that prices are beginning to decline," said Attorney General Palmer. "Probably the decline is not sufficient yet to be appreciable to the average consumer, but I believe it soon will be."

Here are some of the signs of marked improvement:

Chicago reports a drop in wholesale prices which began with pork, affected other meats and spread to grains, vegetables and fruits.

Shoe manufacturers announce that the prices of shoes will not advance and that by 1920, or earlier, the decline will begin.

Wholesale dealers in shoes and clothing in New York are co-operating with the fair price committee to reduce to its minimum the margin of profit on these necessities.

Holdings of dry goods are being released and wholesale prices are already affected.

Fig iron, the price of which is es-

pecially significant, is \$1.50 cheaper per ton than a year ago.

Investigation everywhere has frightened speculators, and hoarding on a large scale has sharply fallen off.

The turn of affairs abroad, where declines in prices are already well established, will have an increasing effect on American markets.

The Guaranty Trust company of New York issues a statement in which it says:

"Accumulated evidence gathered by competent observers leaves now little room for doubt that the lowest point in the economic state of the world was passed some time back and that whatever may be the temper of the present moment, from this time forth progress must ever be more rapid toward stability and prosperity."

Wall Street Shows Downturn

It must be remembered that high prices mean a bull market in stocks and that a bull market means rich pickings for speculators. Therefore, Wall street is extremely reluctant to admit that the turning point has been reached. Yet the curve of stock market averages, including railroads and the principal industrial, shows the high water mark was touched in July and that there has been a steady falling off since.

Attorney General Palmer recognizes the importance of the public state of mind in relation to the cost of living. He warns against the alarmist propaganda intended to keep prices up by encouraging purchases at this time for future needs.

Never were caution and frugality more necessary than today.

Economists are united in the opinion that much depends on what the people at large feel and do. Curtailment of luxuries, a return to the spirit of conservation that prevailed during the war, will encourage the price decline.

COLLISION IN THE AIR

THE DROP

BEFORE THE CRASH

THE COLLISION

SAFE

SANTA MONICA, Cal.—Here are the first photographs ever taken of a collision in midair and the miraculous escape from death of the flyers. Former Army Pilot Robert Kennedy was to drop from one airplane to another 2200 feet above the earth, while movie cameras clicked from a third plane. He started down the rope to the lower plane, as in upper left, when an upper gust of wind turned the lower machine up into the one above. By a miracle, Kennedy swung out of the way, shown in center, and when the machines struck he was far out of danger, upper right. At 1200 feet the machines dove down, Kennedy still holding the rope. The pilots managed to right the planes before they reached earth and Kennedy succeeded in landing without a scratch. He is shown standing beside one of the wrecked planes.

FOUND NOT GUILTY OF MANSLAUGHTER

Found not guilty of manslaughter in connection with the death of Vincenzo Maitellasso, 28, of Lowell, John F. Sharkey was ordered discharged by Judge Enright when his case was called on continuance in police court today. Maitellasso was struck by an automobile driven by Sharkey on Central street June 17 and almost instantly killed.

The inquest report made public today by Judge Pickman on the death of Maitellasso finds that "the death of Maitellasso was not caused or contributed to by the criminal negligence of John F. Sharkey or any other person or persons."

The cases of Joseph McCarthy of Cambridge and Joseph La Farge of Ashmont, who are held in \$2000 and \$500, respectively, by the local court, charged with stealing an automobile, the property of Dr. John H. Donovan, on July 28, which has since been recovered, were called on continuance today, and a further continuance granted until Sept. 11. Both young men have pleaded not guilty.

A fine of \$100 was imposed in the case of Archie Tessier, who pleaded guilty to a statutory charge. He appeared and was held in \$300.

Louis Demango, the young man arraigned yesterday on the charge of stealing a pair of shoes from Oswin S. Bumpus, with whom he was alleged by the police to have bunked one night recently, was found guilty and fined \$25.

For drunkenness, Peter Rusik was given a three months' jail sentence. He appeared and was held in \$200.

DEATHS

KEEFE—Andrew L. Keefe, a well known resident of St. Michael's parish and for many years in the grocery and provision business on Broadway under the firm name of Keefe Bros., died last night at his home, 323 Stevens street, aged 49 years. He leaves two sons, John J. and Joseph L. Keefe, and one brother, Dennis Keefe.

SMITH—Mrs. Mary E. Smith, a well known resident of this city, died this morning at St. John's hospital after a brief illness, aged 41 years. She leaves to mourn her loss her husband, John D. Smith, and one son, John R. Smith. The body will be removed to her home, 20 Fred street, Wednesday afternoon, by Undertaker William A. Mack.

QUEBEC—Mrs. Mary E. Quebec, aged 72 years, died today at the home of her son, Henry A. Quebec, 9 Woodbury st. She leaves four sons, George M., Chas. A., Calvin E. and Henry A. Quebec, and a daughter, Mrs. O. P. Robbey.

FUNERALS

CHAMPAGNE—The funeral of Mrs. Octave Champagne will take place Thursday morning at 8:30 o'clock from her home, 514 Moody street. Solemn high mass of requiem at 9 o'clock at St. Jean Baptiste church. Funeral arrangements in charge of Undertaker Napoleon Bilodeau.

SMITH—The funeral of Mrs. Mary E. Smith will take place Friday morning from her home, 20 Fred street, at 8 o'clock. At St. Michael's church a funeral high mass of requiem will

be celebrated at 9 o'clock. Burial will be in St. Patrick's cemetery, in charge of Undertaker William A. Mack. (Motor cortege.)

ROARK—The funeral of Lawrence Roark will take place Thursday morning at 8 o'clock from the home of his parents, John and Jennie (Scollon) Roark, 465 Lawrence street. Funeral mass will be sung at St. Peter's church at 9 o'clock. Burial will be in St. Patrick's cemetery. Undertaker Higgins Bros. in charge of funeral arrangements.

QUINN—The funeral of Mrs. Ellen Roark will take place Thursday morning from the home of her son, Frank J. Roark, 7 Rockdale ave., at 8:15 o'clock. High mass of requiem at St. Patrick's church at 9 o'clock. Interment will be in St. Patrick's cemetery. Undertaker Peter H. Savage in charge of funeral arrangements.

POLLARD—The funeral of Mrs. Grace L. Smith Pollard will take place

Thursday morning at 8 o'clock from her home, 211 Pleasant street. Dr. J. P. Rogers will officiate. High mass of requiem will be sung at St. Michael's church, instead of St. Peter's. J. P. Rogers in charge.

KEEFE—The funeral of Andrew L. Keefe will take place Friday morning from his home, 323 Stevens street, at 8 o'clock. Solemn high mass of requiem at 9 o'clock. Burial will be in St. Patrick's cemetery, in charge of Undertaker Peter H. Savage. Motor cortege.

QUINN—The funeral of Mary L. Quebec will take place Friday morning from the home of her son, Henry A., 9 Woodbury street. Requiem mass will be sung at the Notre Dame de Lourdes church. Time to be announced later. Funeral under the direction of C. H. Molloy Bros.

"OH, HOW I HATE TO GET UP IN THE MORNING"

If Mr. John R. Power of 416 Merrimack street, Lowell, Mass., the well known loom fixer, did much singing, he would probably have specialized in that song, depicting the comforts of bed, for Mr. Power felt just that way for six months before trying Goldline. He said: "I couldn't sleep well and when I did sleep, it didn't seem to do me any good. I could hardly get out of bed; I felt like lying there all the time. Also had rheumatism that made my legs and shoulders sore and cramped. At times I could hardly get out of my chair but since taking Goldline, that trouble is all gone. I sleep better and feel rested when I wake up."

I eat good now and feel fine. I used to get home from work so tired I would go right to bed but now I go out to a show in the evening. Goldline is good medicine."

Remember, GOLDLINE is sold in Lowell by Carter & Sherburne, F. H. Butler & Co., W. P. Caisse, Jr., Fred Howard, Wm. H. Kiernan, Frank L. McNabb, Wm. H. Monahan, R. F. Webster, Percy & Crawford Co. It is also sold by Roland G. Wright in Billerica, John S. Westwood in Chelmsford, Conant & Co. in Littleton, Edward A. Woodside in Wilmington and dealers in Ayer, Westford, Dracut, Tewksbury and other towns. If your dealer does not carry GOLDLINE in stock, have him secure it through the Lawrence Drug Co.—Adv.

BLAMES VAMPIRE FOR HIS DOWNFALL

A vampire was the cause of it all! So said one of the defendants in police court today. She had loved him on with her protestations of love, made him forget even his wife and children—in fact, she and she alone was to blame for everything that had happened.

"Everything" in this case was the fact that his wife, tired of trying to support herself and children unaided, while hubby and the aforesaid "vampire" were living in another town, had caused a warrant to be sworn out for his arrest, which resulted in his appearance before Judge Enright today charged with neglect.

"Yes, I'm guilty, Your Honor," averred the man who had been "vamped." "Guilty, and I'm thoroughly ashamed of myself. But the woman was to blame for it all."

"How was she to blame?" queried the court.

"Well, judge, she pulled me away from my wife and family. I just couldn't resist her, that's all. She led me on and on and then she threw me down. But I'll get even with her yet and—"

"Now about supporting your wife and family—" began the court.

"She's a rascal," broke in defendant. "An absolute rascal, Your Honor. She led me on. She's a bad one, and I can prove it. Why, she—"

"The question is, if your wife is willing to take you back will you support her as you should?" asked the court.

"I will, judge, sure I will. And I'll get even with that woman, too! Time and again she gyped me—time and again. And I'll—"

"That's enough," ordered the court. "Six months in the house of correction and suspend the sentence. Mr. Clerk." And that ended the story of the vampire.

CARD OF THANKS

ROUND PERCALE APRONS, colored stripes; 29c value. Thursday Morning Special 21c

ALL BOYS AUTO CHASE

Quartet Aid Salisbury Police
to Run Down Operator of
Flyver in Exciting Race

Exeter, N. H. Man Speeded
Off After Colliding With
Another Machine

Herman L. Brun of Exeter, N. H., was brought before the Amesbury police court yesterday charged with operating an automobile while under the influence of liquor, refusing to stop when ordered to by a police officer, and speeding off after colliding with and damaging another car and recklessly operating an automobile. He was found guilty and ordered to pay a fine of \$300.

This item would probably have no local interest were it not for the fact that the arrest of Brun was brought about after a sensational automobile chase in which figured four well known Lowell young men, Edmund Rostler, Max Goldman, George Hill and Louis Seigel.

It seems that late Monday afternoon while the four Lowells were going through the town of Salisbury in Mr. Rostler's Hudson touring car, a young man jumped on the running board and requested the operator to give chase to a Ford touring car, which was just ahead, and which the stranger claimed had crashed into his car, and that the operator had refused to stop. "Sir," turned on the "juke" of his car and the chase started. The Ford circled around other machines, went through crowds of people and managed to make a little headway.

One of the traffic officers in Salisbury attempted to have the operator of the Ford stop his machine, but his efforts were fruitless. The officer jumped aboard the Lowell machine and when a lonely stretch of road was reached, he fired three revolver shots at one of the tires of the speeding Ford, but the shots went wild.

The Ford kept on its high rate of speed with the Hudson in close pursuit, as far as Salisbury beach and there several narrow escapes took place. Finally the Hudson got ahead of the "flyver" and the officer, still standing on the running board, signalled to the driver to stop, but again his order was ignored. The officer jumped from the Hudson and turned a pretty somersault. Just then the Ford collided with another machine and the operator was placed under arrest.

One of the Lowell young men who figured in the chase stated this morning that it was great sport to be chasing a Ford. He said Mr. Rostler could have driven his car in front of the "flyver," but he was afraid that a collision might happen and that his machine would be damaged. The boys were warmly congratulated by the Salisbury police for the help they rendered.

COUNCIL MEETS TONIGHT

To Authorize Auditor to
Utilize Oct. Commitments
of Water Dept.

In order to authorize City Auditor J. Joseph Hennessy to utilize the October commitments of the water department as they are received for the expenses of the department, rather than being obliged to hold them until the municipal council was to have held a special meeting this morning, but inasmuch as only three members of the body appeared, Mayor Thompson and Commissioners Marchand and Morse, it was voted to adjourn until 7.30 this evening. It is expected that the order will be passed at that time.

MEXICO PAYS \$84,000 TO HEAR CARUSO

NEW YORK, Sept. 3.—Enrico Caruso, tenor of the Metropolitan Opera company, and Mrs. Caruso arrived today from Italy on the Giuseppe Verdi. He said he was under contract for 12 performances in Mexico City for \$84,000, but that if conditions were bad in Mexico he would not go there. Failure to appear, he said, would cost him \$300,000 in damages, according to his contract.

BUTTONS FOR WAR VETERANS

KAISER'S JUDGE HEARD IN HUB

American Bar and Bench
Listened to Viscount Finley
of England Today

Noted Jurist Says World's
Law Owe Debt to U. S.
Supreme Court Decisions

BOSTON, Sept. 3.—The greetings of the bench and bar of England were brought to the American Bar association at its annual meeting here today by Viscount Finley, former lord chancellor of England. The famous jurist, who has been mentioned as likely to be Great Britain's choice for president of the trial of William H. Zimmerman, if he is brought before an international tribunal, said that the legal profession of England was proud of the development which the common law of England has received in the United States.

"It is, indeed, a great heritage, that of the common law of England, to which we of both sides of the Atlantic have fallen heir," Viscount Finley said. "You, like ourselves, are proud of its traditions and of the spirit of liberty which it breathes."

"The recent war," he continued, "has given a signal illustration of what international law owes to the supreme court of the United States. It was by that court that the doctrine of continuous voyage in its application to contraband and blockade was worked out at the time of your civil war on the lines originally traced by Lord Stowell in another connection."

These decisions of the supreme court formed the subject of a great deal of controversy, but after the lapse of more than half a century and the experience of this last war, I think we may say that the doctrine there laid down has been finally established as part of the international law of the world."

Viscount Finley said that the relations between the judiciary bench in England and the judiciary bench in America even have been most cordial, and that the same was true of the relations of the bars of the two countries.

"We recognize to the full," he added, "the assistance which reference to the American decisions in the illustration of points of difficulty has afforded. The decisions of your great judges, among whom I may venture to mention only two, that great chief of your supreme court, Chief Justice Marshall and Mr. Justice Story, are prevalent."

MIRROR AND SPOTLIGHT LAW EFFECTIVE

The so-called mirror and spotlight law, approved June 4, 1919, became effective today, and provides a penalty of from \$20 to \$100 for motorists who are convicted of violating its provisions. The act is as follows:

"Section 1. No person shall operate upon any way in this Commonwealth, as defined in section one of chapter five hundred and thirty-four of the acts of nineteen hundred and nine and in the amendments thereof any taxicab, commercial motor vehicle or motor truck, so constructed, equipped or loaded that the driver or operator is prevented from having a constantly free and unobstructed view of the highway immediately in the rear, unless there is attached to the vehicle a mirror or reflector so placed and adjusted as to afford the operator a clear, reflected view of the highway in the rear of the vehicle."

"Section 2. There shall not be used on or in connection with any motor vehicle a spot light, so-called, the rays from which shine more than two feet above the road at a distance of thirty feet from the vehicle, except that such a spot light may be used for the purpose of reading signs, and as an auxiliary light in cases of necessity when the other lights required by law fail to operate."

"Section 3. Violation of this act shall be punished by a fine of not less than twenty or more than one hundred dollars."

Hitchcock Declares Rejection of Treaty Would Isolate U. S. From Rest of World

WASHINGTON, Sept. 3.—Declaring the real purpose of the foreign relations committee majority in amending the peace treaty was to kill it entirely and that such a course would be suicidal to the United States, Senator Hitchcock of Nebraska, democratic leader, asserted in a senate speech today that the majority of the senators never would accept any of the committee changes.

The treaty opponents, he said, "crawl on the ground with a microscope searching for pitfalls" in the "stagnant benefits" which the treaty would bring the nation.

The proposal of Senator Knox of Pennsylvania, that the treaty be rejected and a separate peace made with Germany, was characterized by the speaker as an insane "mixture of pother and folly."

"By a vote of nine to eight," said Senator Hitchcock, "the committee on foreign relations is to bring squarely before the senate the question of defeating the pending treaty. Suppose the senate should vote in favor of the Shantung amendment or any other? What would happen?"

"Either the president would refuse to go further with the treaty or he would submit the amendment to the nations associated with the United States. Does anyone believe they would accept it? Does anyone believe that Great Britain, which has already ratified the treaty and is also under a pledge to Japan with regard to Shantung, would accept the Shantung amendment? Does anyone think that France, also under a pledge to Japan, would ratify this change? Does anyone suppose that Japan herself would submit to this humiliation before the eyes of the world?"

"I cannot conceive of any intelligent and candid man who would assume such a thing as a possibility. We would be met by an instant refusal to accept the amendment, and then where would the United States stand in this international settlement? We would stand ourselves out in the cold, isolated from the rest of the world. The work of ratifying the treaty would proceed without us. Benefits to U. S. From Treaty

"The treaty itself provides that when three nations in addition to Germany have signed, it shall go into effect. It is easy to see the enormous benefits which Great Britain and France will derive from this treaty. They will not take any changes. It is preposterous to suppose that Japan will delay its ratification. The result is beyond all question."

"What then will the United States do? Some say that Congress can pass a joint resolution declaring a state of peace with Germany. Others say the United States can negotiate a separate and independent treaty. Those who talk this way evidently have no conception of the enormous benefits which the United States derives from this treaty."

"Take the matter of German property in the United States. Under this treaty, all acts of the United States and of the alien property are validated unless Germany can show actual fraud. Is anyone insane enough to suppose that Germany will voluntarily make that concession to us if we lose the hold upon her which this treaty gives?"

"This treaty creates a commission called the reparations commission. Unquestionably it will be the most powerful international body ever created. Does anyone think under the circumstances the United States can afford not to have a representative on it?"

"Defeat of the treaty by means of proposed amendments is the real program and hope of the majority of the committee on foreign relations. It is for this purpose that the treaty has been locked up in cold storage for so many weeks."

"A few, very few, have declared they would vote against the treaty because of the League of Nations, but it has remained for Senator Knox to declare boldly against our participation in the peace settlement. To say that he has amazed the country is to put it mildly. He has shocked the country. He formerly favored taking the League of Nations out of the treaty and ratifying the peace settlement with Germany. Now he suddenly changes front."

"What has become of the high professions of last year? Last October, when Germany sought terms for the armistice, the senators now seeking to kill this treaty shouted for unconditional surrender. They demanded terms of peace dictated to Germany. They insisted that the United States should to the last maintain the closest co-operation with the allied governments."

"But now the same senators who insisted on a delayed peace proposal to abandon it and negotiate a peace settlement on terms acceptable to Germany. It is suggested that we desert our associates and negotiate a separate treaty. It is proposed that we adopt a policy of quit and scuttle. It is proposed that we repudiate our obligations and like cravens leave them to be performed by the nations lately associated with us."

An Insane Policy

"Was there ever a more insane international policy proposed? The senator from Pennsylvania goes the limit. He not only proposes that we desert our friends and abandon our obligations, but he suggests that we release Germany from all promises of indemnities and reparations. Why not go further and propose that we compensate Germany? That would be a still stronger appeal to German sentiment."

"I have full faith that when this treaty is finally released from cold storage it will in the senate receive different treatment. The League of Nations has been persistently attacked in this chamber. Those who conjure up these possible disadvantages ignore the enormous advantages of organizing the world for peace. They make mountains out of mole hills in reviewing difficulties of the league plan. They are suspicious that while it may benefit every other nation on earth, it is so devised as to bring disaster to the United States. They are unable to look forward to the promised land of peace and order and justice to which the new movement leads."

PETROGRAD MENACED BY BRITISH FORCES

HELSINGFORS Finland, Tuesday, Sept. 2.—Admiral Cowan, commander of the British squadron in the Baltic, has arrived here in connection with, it is understood, preparation for an attack on Petrograd. He intends, it is said, to confer with members of the British military mission on the plans for the attack.

COAL JUMPS THIRTY CENTS A TON

Coal jumped 30 cents a ton in Lowell yesterday. The reason given for the increase in the price is that the drivers and helpers of the local coal companies received a 15 per cent raise in wages, beginning Sept. 1, and this, added to the increased cost of transportation, has made the advance necessary. Prices on domestic coals now are: Broken and egg, \$13.15 a ton; Stove, \$13.35; Nut, \$13.45, and No. 2 Nut, \$13.20.

CARDINAL MERCIER SAILS

Worcester Car Crash Hurts Nine

WORCESTER, Sept. 3.—Nine persons were injured today, five of them seriously, when two trolley cars on the Holden line of the Worcester Consolidated met in a head-on collision near the Worcester-Holden line. Harry M. Hulbert, of Moncton, N. B., motorman of one of the cars, suffered the loss of both legs at the ankle and probably will die from his injuries. A mix-up in signals which sent the cars into each other in a dense woods, is blamed for the accident.

United States to Retail Frozen Meat

CONCORD, N. H., Sept. 3.—Governor John H. Bartlett announced today that he had received word from the federal government that it would soon put on sale to the public through the various cities of the country a large quantity of cold storage products, including frozen poultry, mutton, pork loins and shoulders, and evaporated fruits. The governor will communicate with the mayors of New Hampshire cities to that effect.

CHICAGO HANDS IT TO N. Y. PROFITEER

CHICAGO, Sept. 3.—United States District Attorney Clynne today ordered two hundred tons of sugar seized yesterday by federal agents put on the market for sale at a price lower than 16 cents a pound. The sugar was sold by J. Aaron Co., New York, to a local firm for 11 cents a hundred pounds, but Mr. Clynne said he would order a refund of the purchase price and force the Aaron company to sell at a lower figure.

"Our evidence shows that the Aaron company purchased the sugar at \$5.50 a hundred pounds," said Mr. Clynne. "We hold that this is a pure case of profiteering and have so informed the district attorney of New York city."

MAINE LEGIONERS AT BANGOR, SEPT. 24

AUGUSTA, Me., Sept. 3.—A call for a state convention of the American Legion to be held at Bangor on Sept. 24, was sent out today by Col. Albert Greenlaw of Eastport, temporary chairman and Sergeant James L. Boye of Augusta, temporary secretary, of the state organization.

SAYS JAPAN NOW IN ARENA OF WORLD

TOKIO, Monday, Sept. 1 (By the Associated Press).—Marquis Kishomski Saloni, former premier and head of the Japanese delegation at the peace conference, arrived here today. Marquis Saloni is quoted as saying: "Every nation is disinterested with the results attained at the peace conference, but the League of Nations has produced a great change in the position of Japan in international politics. Her political interests are now becoming worldwide."

NAGGERS WANT EXPENSES PAID

Bill Offered to Let Solons
Trailing Wilson, Draw on
U. S. Treasury

Breaks all Previous Records
as Uncloaked Example of
G. O. P. Gall

WASHINGTON, Sept. 3.—An appropriation of \$15,000 to defray expenses of senators who plan to follow President Wilson on his peace treaty speech-making tour to the Pacific coast was proposed in a resolution today by Representative Newton, Republican, Missouri.

The resolution recited that expenses of the presidential trip were paid out of the annual traveling fund of \$25,000 voted by Congress, whereas there was no fund for senators who desired to tour the country in opposition to the league covenant.

"But now the same senators who insisted on a delayed peace proposal to abandon it and negotiate a peace settlement on terms acceptable to Germany. It is suggested that we desert our associates and negotiate a separate treaty. It is proposed that we adopt a policy of quit and scuttle. It is proposed that we repudiate our obligations and like cravens leave them to be performed by the nations lately associated with us."

HEALTH AGENT ACTS

Urges Pasteurization of Milk
to Minimize Danger From
Typhoid Infection

In order to keep the danger from typhoid infection down to a minimum in this city, Agent Francis J. O'Hare of the board of health suggests to the public that the custom of pasteurizing milk be brought into play here for the present, at least.

It is at this time of the year that typhoid is most likely to break out, according to Agent O'Hare, and a number of cases has already come to the attention of the local health authorities. By pasteurization the danger of typhoid infection from milk is avoided.

Melvin F. Master, milk inspector, says that the best method of home pasteurization is to put the bottle of milk into a double boiler and fill the receptacle with cold water until it reaches very nearly the top of the milk bottle.

The water should then be heated and the milk allowed to remain in the water until a scum begins to form on the top or the so-called "flash" which comes across the top of the milk when it has been heated to a temperature of 154 degrees is evident. Then the heat should be turned off, the milk allowed to remain in the hot water a few minutes and then cooled off as rapidly as possible without cracking the bottle. Inspector Master suggests as a good method the removal of the hot water in the double boiler and the substitution of moderately cold water. This cools the milk off gradually and when it has returned to its normal temperature it should be put in the ice chest.

Two important things to remember, Mr. Master says, is to have the receptacle in which the milk is heated as clean as possible and also to cool it off after heating as rapidly as possible.

This is considered one of the simplest home methods of pasteurization and is bound to kill any incipient typhoid bacilli as the temperature is a number of degrees higher than reality necessary. Of course, people who have the proper thermometers may pasteurize milk by keeping it at a temperature of between 140 and 145 degrees Fahrenheit for 30 minutes and then proceeding with the cooling process as in the method first explained.

HUB RATE \$23.60

\$2.40 Boost Gives Boston
Her Highest Tax

BOSTON, Sept. 3.—The tax rate for next year will be \$23.60, the highest in the history of the city, Mayor Peters announced today. The new levy is \$2.40 more than that of last year.

MAYOR ACTS TO REDUCE FARES

Hopes to Bring About End
of 10 Cent Carfare Within
City Zone

Submits Plan to Trustees at
Boston Today to Cut Fares
to 6 or 7 Cents

If the efforts of Mayor Perry D. Thompson are of any avail, the people of Lowell will shortly enjoy a street car fare of six or seven cents within the city zone, instead of the ten cent rate that is now in vogue.

Mayor Thompson went to Boston this noon to have a conference with the public trustees of the Eastern Massachusetts Street Railway company at 1.45 and was to present to them a plan whereby local fares would be considerably reduced. This was in response to an invitation sent out by the trustees last week to His Honor asking him to present any suggestions regarding local street car service that he might have in mind. The mayor believes that the traffic within the city limits of Lowell is sufficient to warrant a fare less than ten cents and he felt confident when leaving for Boston that his argument would have weight with the trustees.

Mayor Thompson was to ask for either a six or a seven cent rate for the city zone. With such a fare he believed that the traffic would increase sufficiently to making the project a paying venture. Local street railwaymen themselves have expressed the opinion that with a reduced fare there would be enough business within the city limits to make the proposition financially worth while for the company.

CLARENCE WEED NAMED

Acting Principal of Normal
School During Year's Leave
Granted Mr. Mahoney

Clarence M. Weed, a member of the Normal school faculty and the Lowell park commission, has been appointed acting principal of the local school during the year's leave of absence recently granted Principal John J. Mahoney, that the latter may take up his duties as state supervisor of Americanization.

The office which Mr. Mahoney enters was created in connection with the legislative act of this year, providing for the education of persons over 21 years of age, who are unable to read, read or write the English language.

TREATY STILL DRAGS

G. O. P. Group "Making
Trades" Concerning Different Articles in it

WASHINGTON, Sept. 3.—While republicans leaders hope to report the peace treaty to the senate Friday, they said today that discussion of the resolution of ratification in which reservations will be incorporated would take some time and might delay a report until early next week. They believe it is certain, however, that the treaty will be brought into the senate not later than next Wednesday.

The committee plans to close its hearings Friday and probably after adopting Senator Fall's amendment to eliminate the labor section will proceed to frame the resolution of ratification and the proposed reservations.

Progress was reported today among republican leaders toward a harmony program on reservations. A compromise between the republican reservationists is being negotiated with much prospect of success, it is said.

The reservation reported still in disagreement is that dealing with Article 18 of the league covenant. Negotiations on this clause were said to be still in progress.

RUMANIA MAY GET ALLIED THRASHING

PARIS, Sept. 3.—The supreme council today decided to send an ultimatum to the Rumanian government regarding her course in Hungary.

The ultimatum, couched in drastic terms and with a time limit, will be delivered by an envoy of the council. Should Rumania refuse to comply with the terms within a given time, diplomatic relations will cease and the allied envoy will bring away with him from Bucharest the allied diplomatic representatives there.

First in U. S., Will Cele-
brate Sept. 15

(Special to The Sun.)

STATE HOUSE, Boston, Sept. 3.—The fiftieth anniversary of the creation of the state department of health will be observed with appropriate exercises in the state house on September 15 at which Governor Coolidge will deliver the principal address. As the department was the first of any of its kind throughout the Union, the celebration will be in keeping with the importance of the occasion, health authorities from all over the country having expressed their intention of participating.

Among the prominent speakers will be Dr. Henry P. Walcott, commissioner of the department between 1866 and 1914, Dr. William H. Welch, director of the school for public health of Johns Hopkins university, Dr. A. J. McLaughlin, former state health commissioner and now assistant surgeon general in the United States public health service and Sir Arthur Newsholme, formerly chief medical officer of the local government board of England. These men are among the leaders of their profession throughout the world. Commissioner of Health Eugene R. Kelley will preside over the meeting.

The department has had a notable career. It was the outcome of an investigation made into the health needs of the state by a legislative committee in 1849. Twenty years afterward, after lengthy agitation in the intervening period, it came into existence.

Some of the notable achievements of the department are as follows:

Protection of the purity of food and medicines after the enactment of the food and drug law.

Establishment of modern sewerage systems as a result of investigations by the department.

Improvement of the sanitary conditions on the Charles river, which was followed by the building on the Charles river basin.

Creation of a system for metropolitan water supply.

Building of this Lawrence experiment station for the study of water and sewerage problems.

Establishment of a laboratory for the distribution of diphtheria antitoxin.

Creation of health districts throughout the state for the improvement in hygiene and sanitation. HOYT.

MEETING OF MEMORIAL AUDITORIUM BUILDING COMMISSION

The memorial auditorium building commission met late yesterday afternoon to transact routine business. A check for \$3638 was turned over to the general treasury fund of the city as the result of the sale of buildings on the site of the proposed building.

Although \$3740 was received from the sale, \$42 of this had to be spent for advertising. The receipts will be placed to the credit of the commission.

A vote of thanks to Auctioneer Geo. F. Stiles, who sold the buildings without charging for his services, was passed. Plans for the building have not yet arrived, but there was an informal discussion concerning them at yesterday's meeting. When they are received it is proposed to have representatives of various veteran organizations attend a second conference to express their preferences in the location of their quarters.

SCHOOL BOARD MEETING

The school board will hold a special meeting tomorrow evening at 8 o'clock to discuss plans for the new high school.

The most poetically named railroad is the Queen & Crescent.

A National Problem Solved

Pure, Wholesome Food + Nujol = Health

PURE, wholesome food is necessary, but it is not enough. The purest, most wholesome food will hinder rather than help health if allowed to clog the colon—the large intestine. And doctors agree that about 90% of our ailments are caused or intensified by constipation.

Some part of even the purest and most wholesome food is waste. If this waste is not kept moving out of the body, it stagnates and breeds poisons which saturate the system and cause or nourish disease.

The old, wrong way to attack such stagnation was to force a passage through the impacted mass.

The new, right way to overcome it is to let Nujol induce easy self-elimination.

And since health is as much a matter of how we eliminate waste as how we assimilate food-fuel, it must become evident to every thinking person that the use of a natural, drugless lubricant is as sensible and necessary as the eating of pure, wholesome food.

The three vital processes upon which health is based are Mastication, Assimilation, Elimination.

Therefore, the perfect recipe for health is thorough Mastication; Pure, wholesome Food, and Nujol.

Try this today. Get a bottle of Nujol from your druggist to-day.

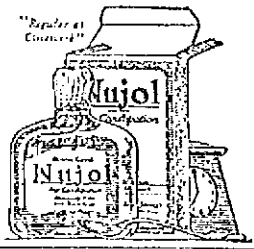

For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey) 50 B'way, N.Y.

Warning: Nujol is sold only in sealed bottles. Be sure the Nujol you take is fresh. Do not use old Nujol. You can get it from your druggist.

Nujol

For Constipation

Sickness Prevention

CARSON STARTS FIGHT

Denounces Northcliffe in Belfast Anti-Home Rule Speech

BELFAST, Tuesday, Sept. 2.—Sir Edward Carson, in opening a new anti-home rule campaign here tonight, criticized Viscount Northcliffe whom he called "the greatest absentee Irish capitalist and the greatest example of an Irishman who under the union, has made untold wealth in England." "He dearly loves man hunting," said Sir Edward. "He hunted Earl Kitchener, Field Marshal Viscount French, Viscount Jellicoe, Viscount Milner and J. Austen Chamberlain, and more recently Premier Lloyd George. I have thought this over and believe I have found a solution to the question. It is to make Viscount Northcliffe prime minister. The only disadvantage would be that, as prime minister, he would have to meet in parliament face to face, those he assaults and could not attack them from the editorial pages."

SINN FEIN

Orange Leader Says it Cloaks Home Rule

BELFAST, Sept. 2. (By the Associated Press).—Sir Edward Carson, leader of the Ulster unionists, who has come to Belfast to open a new anti-home rule campaign, addressing the Ulster unionist council yesterday declared that, as far as Ireland was concerned, colonial home rule was the same thing as the Sinn Fein, and that in this respect the Sinn Fein was perfectly logical because in reality there was nothing between union and separatism.

Sir Edward challenged the government to make an unequivocal declaration whether it had anything in its

mind bordering on the Sinn Fein and if not to courageously let the world know that Great Britain would brook no interference, whether by agitation in the United States, on the continent or elsewhere.

Self-determination was characterized by Sir Edward as one of the most misleading phrases ever advanced. He asked if the United States would allow the southern self-determination or if Canada would permit Quebec to have self-determination.

Declaring that he saw no prospect of a settlement of the pending issue with regard to Ireland, Sir Edward predicted the early collapse of the coalition government and a return to pre-war party politics.

JUNK BRITISH NAVY?

Baron Fisher's Plea in Accord With New Economy Fad, Evidently

LONDON, Tuesday, Sept. 2.—The demand of Baron Fisher of Kilverstone, former first sea lord, for the virtual scrapping of the navy, half of which is obsolete already, on the ground that a big navy is not required now that Germany has been defeated, has been printed in all the newspapers here and has caused a sensation. Naval experts consider that the proposal is much too drastic and fears are expressed that there is imminent a great fight between the advocates of a small and a big navy.

Sir Percy Scott who, as rear admiral, was formerly in command of the first cruiser squadron, considers that the larger battleship is doomed and that money devoted to building these ships could be better employed in other ways. He does not, however, agree with all of Baron Fisher's conclusions.

The campaign for administrative economy is gaining momentum daily. Andrew Bonar Law, government leader in the house of commons and J. Austen Chamberlain, chancellor of the exchequer, came to London today especially to hold a meeting of the cabinet which was attended by Earl Curzon, president of the council and government leader in the house of lords, and George Nicoll Barnes, minister without portfolio. Discussion centered around national finance, particularly on the question how much estimates for the defensive services could be reduced.

Answering press attacks upon Mr. Bonar Law, Premier Lloyd George has sent a message to newspapers here declaring it would be grossly unfair to attribute continued war expenditures to any particular member of the government.

Lenine's real name is Ulanoff; Trotsky's is Braunstein.

Liberty bonds as first payment on fur coats are quite popular.

Doctor Tells How to Detect Harmful Effects of Tobacco

Try These SIMPLE TESTS

New York, Doctor Cannon, formerly of Johns Hopkins hospital, says: "Many men who smoke, chew or sniff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would never have been afflicted had it not been for the use of tobacco, and thousands would soon get well if they would only stop the use of tobacco. The chief harmful principle of tobacco is nicotine, a deadly poison which, when absorbed by the system slowly affects the nerve, membrane, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with indigestion, another with even cancer with general debility, others with a variety of ailments. In the course of reading your paper, you may find a notice of a man who has been afflicted with heart disease, bronchial trouble, hardening of the arteries, or the common affliction known as tobacco heart. If you use tobacco in any form you can easily detect the harmful effects by making the following simple tests. Read aloud one full page from a book. If in the course of reading your voice becomes hoarse, hoarse and indistinct, and you must frequently clear your throat, the chances are that your throat is affected by cancer and it may be the beginning of more serious trouble. Next, in the morning before taking your usual smoke, walk up three flights of stairs at a regular pace, then

COLUMBUS CARMEN MAKE CITY WALK

COLUMBUS, O., Sept. 3.—Columbus awoke this morning to find an unexpected strike of motormen and conductors on its street car lines. The union stated the strike had been called to obtain better working conditions and higher pay, but its demands had not been made public. Yesterday the men refused to run cars under broken trolley wires repaired by non-union linemen. Union linemen have been on strike.

EGG INSPECTORS IN HUB GO ON STRIKE

BOSTON, Sept. 2.—Two hundred union egg inspectors employed by wholesalers in the market district here, struck today for a wage increase of \$1 a week and recognition of their organization. Their present wage is said to average \$25.

ROW IN ATLANTA WOMEN'S FIRST VOTE

ATLANTA, Ga., Sept. 3.—Atlanta women today exercised the ballot for the first time, voting in the city decorative primary. While the state law does not extend suffrage to women, the primary committee decided recently to permit women to take part in nominating municipal officers. A total of 3765 women registered, paying \$1 apiece for the privilege, and a disagreement as to which charity should get the \$3765 led to announcement by the women leaders that E. C. Buchanan, chairman of the committee would be defeated for re-election.

OUTDOOR MOVIES POSTPONED

The program of outdoor movies which was to have been held on the South common this evening has been postponed until Thursday evening. The park commission will also stage a movie program on the North common Friday evening.

FIREMEN ON VACATION

The following members of the fire department are enjoying their annual vacation: District Chief Thomas F. Saunders, Capt. Thomas F. Conway, Capt. W. A. Dolan, Hamlin S. Gardner, George J. Hurley, Thomas F. McGuire, Patrick F. Mahoney, James F. McGuinness, Patrick J. Mooney and Herman R. Morrison.

Fine Wall Papers Need Not Necessarily be Expensive

It is a mistake to assume that wall papers to be really artistic and beautiful must of necessity be expensive. You will be astonished at the low prices of the many exquisitely designed and colored patterns made by the Imperial and affiliated factories. Each and every one of them is an original design by the Imperial designers and every roll bears the famous Imperial imprint on the selvage.

Drop in and look around. We will be glad to show you at your pleasure anytime.

Leonard EAR OIL

Relieves Deafness, Stops Head Noises

It is not put in the ears, but is "Rubbed in Back of Ears" and "Inserted in the Nostrils." Has had a Successful Sale since 1907.

I will forfeit \$1000 if the following testimonial is not genuine and unsolicited:

"Dear Sir:—It is with the greatest pleasure that I write you recommending your Wonderful Ear Oil. My mother has been deaf for over 20 years, and she used two bottles of your oil, and yesterday, for the first time in over 20 years, she heard Harry's Band play in Hemming Park, here. Words are inadequate to express to you the thanks of mother and myself. I am a member of the theatrical profession and very well and favorably known here, and you can use my name in recommending your Ear Oil. Yours gratefully, ED. LAWRENCE, 2215 Hubbard St., Jacksonville, Fla."

LANE SENDS CONFERENCE FOOD FOR THOUGHT

LAKE GENEVA, Wis., Sept. 3.—In a message to the New Era conference of the Presbyterian church, Frank L. Lane, secretary of the interior, today suggested that the conference should consider the following questions:
 How can profit-sharing be most simply and easily effected in industry?
 How far should workers be encouraged with control of managerial policies?
 Cannot a movement be started to remove large industries and small from cities into towns and villages where the workers could have their own homes?
 How may the social advantages of the city be provided in the country?
 How may illiteracy be stamped out?
 The largest railroad yard in the world is at St. Nazaire, France, built by Yank engineers.

ENGINEER'S OFFER

To Build 2½ Miles Grandstand for Big N. Y. Parade

NEW YORK, Sept. 3.—Only 5000 seats are available now for hundreds of thousands who want to see General Pershing at the head of the First Division parade on Fifth avenue next Wednesday.
 If lumber is contributed or funds are provided for it from private sources the engineering companies at Camp Mills have volunteered to rebuild the two and one-half miles of stands on the Central park side of Fifth avenue, which were torn down after the parade of the 11th and 12th Divisions.
 The Leviathan, Captain General Pershing, is due at Hoboken by Wednesday. In addition to the 12,000 men of the First Division, General Pershing's own regiment, the 1st New York Cavalry, will parade. Pershing's own regiment, the 1st New York Cavalry, will parade. Pershing's own regiment, the 1st New York Cavalry, will parade.

SENT TO SIBERIA

28 More Men Dispatched by Y. M. C. A.

NEW YORK, Sept. 3.—More than 150,000 has been expended monthly by the Y. M. C. A. for supplies being rushed into Siberia for use of the 7000 American troops there, the allied military departments, patrolling the Trans-Siberian railroad, and the loyal Russian civilian population in the Kolchak government. It is stated, in a report in charge of Red Triangle work in Russia and Siberia, announced today at the headquarters of the Y. M. C. A. department, international committee, Y. M. C. A.
 "The American Y. M. C. A. is adding its overseas secretaries to its staff of more than 100 workers now in Siberia," said Secretary Colman. "These reinforcements will sail within the next few days. The Y. M. C. A. will continue to aid struggling Russia, as advocated by Ambassador Morris in his current report to the state department in which

he suggested that the United States give immediate and greater cooperation to Admiral Kolchak."

ACTORS' STRIKE

End Soon Expected—Managers Bow to Defeat

NEW YORK, Sept. 3.—Settlement of the actors' strike within 24 hours was predicted today. A report was current that the managers' association, by a vote of 35 to 6, decided last night to recognize the Actors' Equity association, the principal point at issue, and that the Actors' Fidelity League, the rival of the equity association, had temporarily ceased its campaign for membership.
 George M. Cohan of the Producing Managers' association, and Frank Gilmore, secretary of the Equity association, both said important developments were at hand. Meanwhile, the managers have announced the reopening of five theatres within a few days, strike or no strike.

OF NEW CITIES

ON STIRRED COP'S TAXI BILL

Sept. 3.—A taxi bill for Chief of Police Elliott T. Washburn, having paid to serve witnesses on witnesses for the week into the death of George R. Washburn, wife of Chief of Police Elliott T. Washburn, is creating a stir in local police circles and has been referred to Judge Warren A. Reed for a decision.
 City Marshal Daniel M. Ryan decided it would be economical to send the summonses to the Waltham police to serve on the colored maid and other witnesses. Chief Smith could not locate the colored maid at Onset, and upon learning that other witnesses wanted were in Harwich, he took a taxi and served the summons on George R. Washburn. The 30-dollar automobile ride from Onset to Harwich is now the chief topic of discussion at police headquarters.

BAD FATHER GETS 6 YEARS IN PRISON

WORCESTER, Sept. 3.—Joseph N. Riel of Sutton was sentenced in superior criminal court by Judge William D. McLaughlin yesterday to serve not less than six nor more than 10 years in the state prison. Riel was tried in Fitchburg last week on an indictment charging him with assaulting his daughter, Leona M. B. Riel, January 20, 1918, and was convicted. Disposition was put over until today.

GIRLS GO TO PICK VIRGINIA APPLES

WORCESTER, Sept. 3.—Miss Esther Forbes, daughter of Judge William T. Forbes of the probate court, Miss Mary Smith of 142 Burncoat street, Miss Barbara Burgess of 5 Fenimore road, all of Worcester, and Miss Amy Wheelock of Southbridge start today for Charleston, W. Va., where they are to work eight hours a day for the next six weeks with other college girls in harvesting the apple crop on a 350-acre plantation.
 They have set 32 barrels a day for their schedule.

THIS KID CERTAINLY MEANT FOR MOVIES

CONCORD, N. H., Sept. 3.—Henry Smith, the 8-year-old runaway who gave the local police considerable trouble last week, again ran away from his home in Bradford early Monday evening and yesterday morning was found in a barn at Roby's Corner, not far from Waterford. The boy was clad only in pajamas when he ran away and changed his clothes in the woods. In making his escape he swam the river, and while neighbors who were chasing him were procuring a boat to follow him he swam back and eluded them all.

NEWBURYPORT MUST PAY MORE FOR LIGHT

NEWBURYPORT, Sept. 3.—Announcement of an increase in the price of electricity was made by the Newburyport Gas and Electric company yesterday. The new price for lighting is 15 cents per kilowatt, with 10 per cent discount if the bill is paid in 12 days. The old price was 15 cents per kilowatt, with discount of two cents per kilowatt.
 The price of electric power has been raised proportionately. The company says the increase was made necessary by the increase in cost of labor and materials used in the manufacture and distribution of electricity.

CO. K OF OLD 6TH ORGANIZES

A permanent social organization, similar to the recently organized local post of the American legion, was formed by 50 members of Co. K of the old Sixth Regiment—men who followed the colors over there until Kaiser Bill decided to call it a day—who held their first reunion since returning to God's country at the War Camp Community club on Dutton street last evening.

The following officers were elected: E. H. Hart, president; Edward P. McInerney, vice president; Thomas Rodkin, secretary; William Carl, treasurer, and Ralph Pollard, historian.
 It was voted to invite all former Co. K men to become members of the new organization, and those present were also urged to join the Lowell post of the American legion. Meetings will be held on Tuesday nights, for the present at the War Camp Community club. It was also voted to hold a banquet on Nov. 11.

TAX ON SODAS AND ICE CREAM

Newspaper headlines indicating that the tax on soda waters and ice cream has been repealed have created an erroneous impression among many of the dealers who, it seems, did not read further to learn that the headlines concerned only the action taken by the house of representatives and did not change the law which is still in force.
 Internal revenue agents from the office of Collector John P. Malley, in their present state-wide campaign to collect this so-called luxury tax, find that many, covered by such headlines, assume that the tax has been discontinued. This is not so, as Congress has taken no such action. Abolition of the tax is contemplated, but until final action is taken the tax will have to be paid and those who fail to comply with the law will find that they are subject to severe penalties.

MINOR LICENSES GRANTED

The following minor licenses were granted at the regular meeting of the license commission last evening: Lodging houses, F. X. Garneau, 118 East Merrimack street, and at 136

CARLISLE HONORS SERVICE MEN

Carlisle was in its glory Labor day when it held a welcome home reception to its soldiers and sailors who served in the world war. The program lasted all day and was profuse with features of interest. The big parade which took place at 11 o'clock in the morning was one of the most attractive numbers and was witnessed by a large crowd. Lieut. Edward S. Ricker was chief marshal. Throughout the day the Waltham orchestra furnished music on the town common and at noon a buffet luncheon was served. The afternoon's program included addresses in the First Universal church, at which the principal speaker was Albert P. Langtry, secretary of the commonwealth, and a series of sporting events. In the evening many couples enjoyed dancing in Union hall.

NEW ZEALAND RATIFIES

WELLINGTON, N. Z., Tuesday, Sept. 2.—The peace treaty with Germany was unanimously ratified today by parliament, after members of the labor party had criticized it.

REINS TO HITCHCOCK

Pres. Wilson Leaves Senator to Fight Peace Treaty's Foes in His Absence

WASHINGTON, Sept. 3.—Senator Hitchcock of Nebraska, the leading administration spokesman in the Senate, was invited to the White House today for a final conference before President Wilson starts tonight on his speaking tour to the Pacific coast in the interest of the peace treaty.

It was understood that the president desired to discuss with Senator Hitchcock plans for the conduct during his absence of the administration fight in the Senate for ratification of the treaty and the League of Nations covenant without change.

President Wilson will leave Washington tonight on his tour of the country to urge before the American people early ratification of the peace treaty and his League of Nations covenant by the Senate without qualifying reservation. The first stop will be at Columbus, Ohio, where the president will

deliver the first of his scheduled 30 addresses Thursday.

Before leaving here, he planned to issue invitations to labor leaders, financiers, manufacturers and farmers to attend a conference for the consideration of pending industrial problems. He hoped to complete all arrangements for the conference so that it could be held immediately upon his return at the end of this month.

He will be accompanied on his trip by Mrs. Wilson, Rear Admiral Grayson, his physician, Secretary Tumulty, stenographers, secret service men and 30 press representatives.

Although the itinerary calls for 30 set speeches in the principal cities of the west, it is believed the president also will deliver many short platform addresses at smaller towns along the route.

MATRIMONIAL

A very pretty wedding took place this morning when Mr. Joseph Telephore Dusseault, a former member of Battery K, who saw 18 months' active service in France and a member of the Sacred Heart league of St. Joseph's parish, and Miss Anna Langlais, charming daughter of Mr. and Mrs. Abraham Langlais of 26 James street, were united in the bonds of matrimony.

mony, the ceremony being performed at 8 o'clock this morning at a high nuptial mass celebrated in St. Jean Baptiste church by Rev. Charles Desjard, O.M.I., spiritual director of the league. The bride was handsomely attired in Loretta gown and Georgette crepe and carried a bride's roses. She was given away by her father, while the groom was accompanied by his father, Mr. Telephore Dusseault. During the mass special hymns were rendered by the Sacred Heart league choir, while Miss Yvonne Montmarquet rendered "Ave Maria." Mr. Napoleon Milot, Jr., sang an "O Salutaris," and after the elevation the choir rendered "Agnus Dei," the solos being sustained by Miss Anna Martel. At the close of the ceremony the bride party repaired to the home of the bride, where a wedding breakfast was served. Mr. and Mrs. Dusseault left on the 1:47 clock train for Boston and this evening they will take the boat for New York. Upon their return in ten days they will make their home at 25 James street.

A few days ago Mr. Dusseault was tendered a bachelor party by a number of his friends and as a token of esteem was presented a purse of gold and a handsome smoking set. In the course of the evening a varied enter-

A Special Showing of ART SQUARES

BOARD OF TRADE OUTING

Frank H. Pope, Commissioner of Small Loans, to be Speaker

Frank H. Pope, former state auditor, at present state commissioner of small loans and considered one of the best equipped after-dinner speakers of this section of the country will be the principal speaker at the big outing to be held by the board of trade tomorrow at the Genoa club in Tyngsboro. It was announced today.

Mr. Pope will deal with a topic of timely interest and the announcement

of his presence adds another attractive feature to the already extensive program outlined by the board's outing committee.

Members of the organization will leave the city by automobiles or special electric cars shortly after noon and upon arrival at the grounds will enjoy a buffet luncheon. The afternoon will be given over to a series of sport-lag events and prizes will be awarded the winners. A ball game between the fat and lean men with Congressman Rogers at the helm of the stout players will be another feature of the afternoon.

At 5 p. m. a big dinner will be served and then will come the addresses of the occasion. Mr. Pope, Congressman Rogers and several other prominent officials are scheduled to speak. An exceptionally large number of members have expressed their in-

terest in enjoying the board's first outing since 1915 and everything points to a most successful affair.

INJUNCTION HEARING

The joint hearing on the petitions of the Federal Shoe Co. and the L. H. Spaulding Shoe Co. for an injunction to restrain the members of the Allied Shoe Workers' union of this city from doing picket duty around their plants, which was started at the local court house yesterday, was resumed this morning with G. A. A. Pevey of Cambridge acting as master. In the course of the day several witnesses were questioned by Edward J. Tierney, counsel for the petitioners, and cross examined by D. J. Donahue, counsel for the shoe workers.

In most Chinese cities the finest shops are those devoted to the sale of coffins.

Taft Says League in Treaty Because "Plain People" Demanded it

By WILLIAM HOWARD TAFT.
I think there is a great deal of misconception as to what it was which brought about the League of Nations. It has been said to be a fad of Mr. Wilson's; it has been said that he hurried things in the treaty in order to carry out his fad. This is great error. Mr. Wilson has not always been in great favor of the league; neither has Mr. Lloyd George, neither has Mr. Clemenceau. The truth is that this league was incorporated in the treaty because the plain people of Great Britain and of France and of Italy demanded a league of nations as machinery by which this might be made, as nearly as possible, the last war.

Then feeling grew as the morale weakened in these countries, and the morale was stiffened by those among the plain people who urged that the introduction of a league of nations would make war in the future impossible, and that they ought to make the effort to win the war, because by so doing, and through a league of nations, they would accomplish a purpose justifying the enormous sacrifices that a continuance of the war would involve. This is why the first resolution passed by the conference was that "Not only must there be a league of nations, but it must be the first thing considered, it must be an indispensable part of the treaty." All this came because of the knowledge of Mr. Clemenceau, Signor Orlando, and Mr. Lloyd George that the plain people of these countries demanded such machinery. If it is adopted it will furnish one more instance of the common sense of plain people that justifies a step forward which statesmen and halting philosophers are afraid to take.

The women in this country are in favor of the league. The working men are in favor of the league. The churches are in favor of the league. Why? Because they fully understand its provisions? No, but because they believe that it is a sincere effort to unite the forces of all the nations of the world to prevent war as far as possible. And they are willing to undertake the experiment. Now, the league is part of the treaty. Its constitutional validity, as far as we are especially

concerned, depends on the question. What is the scope of the treaty-making power?

Now, whether the league be constitutional or not depends upon the construction that should be put upon it. The objectors to the league, many of them, say that it creates a super-sovereignty, an over-government, a managing directorate in which the delegated powers are given that only can be exercised under our constitution by Congress. There might be such a league; there might be such a league as France desired to have in which there would be a managing directorate with a chief of police, so that Chief of Police Foch, hearing of a disturbance in one part of the globe, could send word by cable to his superintendent there. "Take twenty thousand men, go over and suppress that disturbance, and put out the fire." France was anxious to have it, because France wanted an arrangement by which Foch could order the German frontier to be attacked on any threat of German attack on France, half a million men, and her delegates argued strenuously before the conference in favor of such an arrangement. But the other nations declined. And our representatives declined, because they said: Not only do we object on grounds of expediency to parting with sovereignty such as that would be, but we have not the power under the constitution.

The league which I have described is not the league that is now presented for our consideration and adoption. What is it? It is only a partnership agreement. It is an agreement in which the partners agree to cooperate. It is written in the covenant what they shall do under the obligations so described. The circumstances under which these obligations arose are stated in the covenant; and it is for each member of the league necessarily to construe its own obligation, to determine how that obligation shall be performed, and then to perform it, itself, and not through any agency except its constitutional and normal agency to do the thing which it has agreed to do. I think if you study the league you will find that is the condition. It is said that the council is the managing body; that it is the super-sovereign. There is no function to be performed by the council that is not advisory. The expression "to deal with" occurs once or twice, but you will find that expression refers rather to the scope of the subject matter to be considered in the meeting, of which all members must take notice so as to be there, and that the description of the functions

A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named **Malted Milk**. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

Ask for HORLICK'S—Avoid Imitations

of the council itself is contained in the words "recommend," "advise," and "propose."

Upon these words and the construction of these words must depend what the function of the council is. Those who object on the ground that that is super-sovereignty maintain that "recommend" means "command," that "advise" means "direct," and that "propose" means "order." I submit on the face of it that that is a strained construction of the words, and that nothing but a most unusual context in each case would justify such a misinterpretation of the words according to their ordinary meaning. And when you consider that this league is a league not under a supreme court which has the power over every member to compel it to render its affirmative duty, but that this must depend upon the spirit of co-operation, and that each nation must determine for itself its meaning, the construction by us will certainly be reasonable.

FAILS FOR TITLE LOSES FORTUNE

LONDON.—Because he failed to attain the title of baronet or a higher honor, the son of the late Charles William Wallace, former Indian merchant, is bereft of a legacy amounting to more than \$1,250,000. Wallace stipulated in his will that his estate valued at this sum should go to the British and Indian treasures in the event that his son failed to be honored.

It is estimated that 407 airplanes took part in the German raids on England.

Experts or Theorists—Which?

The packing industry is intricate, complex—far more so than the railroads or the telegraph.

Every day multiplying needs of society increase its problems and multiplying responsibilities demand more of it.

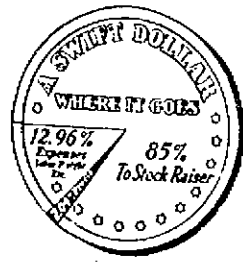

Highly trained experts, specialists of years' experience, thinkers and creative men, devote their lives, their energies, their activities, to solving the problems of the packing industry and meeting its widening duties.

Swift & Company is not a few dozen packing plants, a few hundred branch houses, a few thousand refrigerator cars, and a few million dollars of capital, but an organization of such men. It is the experience, intelligence, initiative and activity which operates this physical equipment.

Can this intelligence, this experience, this initiative and creative effort which handles this business at a profit of only a fraction of a cent per pound from all sources, be fostered through the intervention of political theorists, however pure their purposes? Or be replaced by legislation? Does Congress really think that it can?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

Swift & Company, U. S. A. Lowell Local Branch, 572 Dutton Street J. E. Wolf, Manager

MILLBURY GIRL WEEPS TELLING HOME STORY

WORCESTER, Sept. 3.—Millbury yesterday provided a pathetic incident in the central district court when pretty 16-year-old Arthe N. Ettiene of that town was principal witness against her father, Charles Ettiene, 55 years old, who was accused of beating her mother to such an extent that she was obliged to leave home.

The girl is an only daughter and her father insists that she should go to work in a mill, while the girl is making every effort to provide herself with a business college education. "And," she told the court, "I will go through with it, and before long I will be able to care for my mother." The girl wept while on the witness stand.

MALDEN DOES BIG MARRIAGE BUSINESS

MALDEN, Sept. 3.—Malden broke all her old marriage license records and established a new one yesterday, when 11 couples proudly walked up to the city clerk's desk and obtained the permits to be married. City Clerk Leverett E. Holden said it established a record and broke all the other records to smithereens.

"Calculate the three days' vacation, Saturday, Sunday and Monday (Labor Day), that most people had given those 11 couples a chance to talk matters over and they decided on the yoke for life. People are not struggling for a living as they were once and while the high cost of living is a problem, yet most people are getting along comfortably and some are prospering, and these 11 applications for permission to wed prove it," said the veteran city official.

TOWNS IN LEGION

PARIS.—The cities of Douai and Cambrai, famous battlegrounds in the world war, were decorated with the Legion of Honor. This is a rare occurrence as this honor goes in most instances to famous persons.

EASTPORT HOPES SHE MAY AID THE H. C. L.

EASTPORT, Me., Sept. 3.—A possible relief to the well-known high cost of living may lie in the enormous catches of large-sized herring in local waters here. The largest catches of the entire year have been made here in the past two weeks.

As a result of the large supply of fish the local canneries have been compelled to work until 10 o'clock at night, and even under these conditions they are finding it difficult to handle the fish which come in every day.

PAYS HUGE TAX TO U. S.

SEATTLE.—Paying one of the biggest excess profits taxes assessed a foreign corporation doing business in the United States, the Nippon Yusen Kaisha a few days ago forwarded a check for \$2,241,000 to the internal revenue department. The check was in payment for excess profits from all business done in the United States during the year 1918.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and harmless—Ad.

TREASON CHARGE

PARIS.—The little court-martial, which recently sentenced the informer Richard to death, now has before it five women, four of whom are from 20 to 33, while the fifth is 52. The confession of one of them shows that they denounced soldiers and civilians wholesale, besides giving information as to hidden stores of wheat, oats and wine.

Gold coin is "peppered" with the mineral Iridium to keep it from being melted down.

NATIONAL ADVERTISING

Certain articles of merchandise placed on sale in cities like Lowell, are found to be backed up and sales by the retailer aided, by national advertising campaigns.

In many instances such campaigns will be confined to magazines. The manufacturer assumes that as he comes part way, when he advertises extensively in magazines, the retailer will be willing to finish the job by advertising the article in the daily papers. It is in fact as though the manufacturer started the ball rolling by advertising in magazines and getting people to ask questions. Then it is expected the retailer, by means of his daily paper ad, will answer the question of where and how easily, the article can be obtained.

Are you carrying out this scheme by your individual contribution, Mr. Retailer? Is it made plain to the Lowell housewife when she reads a costly advertisement in a magazine, that the very article can be obtained here in Lowell? Or, does the absence of your ad make her think it can be bought no nearer than Boston.

It is up to you, Mr. Retailer. You have to do your share. The most efficient way to do this as far as this field is concerned, is to see that your ad, backing up national advertising, is in

THE SUN

Lowell's Greatest Newspaper

A THANKLESS TASK

Judging from despatches from Paris it seems that the American delegation to the peace conference is becoming disgusted with the frequent demands upon its members to settle the endless bickering in the Balkan states. Apparently the Americans have a thankless task in their efforts to restore peace to the small nations now carrying on a sort of guerrilla warfare. It is also apparent that instead of making friends for themselves or their country, members of the delegation are actually being snubbed for "interference" in European affairs. This indicates what a hopeless task the peace delegates from this country have turned their attention to deplete to settle the diplomatic and ethnological controversies now raging among the newly erected states and in some of the older as to the location of national boundaries and racial control.

THE CHIEF SUFFERER

In discussing the high cost of living and the hardships which some families must endure, it should be remembered that the wage earner of the present day, who has a large family dependent upon him for support, is the one upon whom the high cost of living falls with most crushing force. The working man who has to support a family of six or seven children, none of whom is old enough to work, must find it very difficult to secure all the supplies needed to keep his family in comfort. Few complaints are heard from such men but unless they are earning high wages, they will have to economize more than ever before. There will be no room for indulgence in liquor, tobacco, entertainments or any of the things outside the bare necessities of life. It seems that under the circumstances such men should receive kind consideration from their employers and should have a preference over men who have not so many mouths dependent upon them. But it often happens that the average employer makes no inquiry as to the responsibilities his employees may have to bear. Under present conditions this is not the right thing to do.

MILITARY JUSTICE

If only one-half of the charges made against the court martial system of the American army be true, it should be radically modified. It is true that rigorous methods are necessary to force some men into what appears to be certain death, but in war that very thing frequently becomes the soldier's foremost duty. Cowardice, shirking or any neglect of duty calls for severe punishment, yet in the decrees of a court martial there should be some semblance of justice so that a slight slip such as extending a parole perhaps unavoidably, will not be punished as severely as open desertion, or cowardice in front of the enemy.

Major Gen. Kernan, chairman of the war department board that has investigated charges of unfair court martial decisions, says that the purpose of courts martial is to maintain the discipline of armies rather than exemplify the technical rules of law. It is useless, therefore, to judge of courts martial sentences by the recognized standards of justice. They were severe or severity was needed to maintain discipline, but it appears that cases the severity was carried to dangerous extremes even

after all due allowance had been made for the rigors needed to uphold military discipline. It is one of the evils of war that discipline must often be maintained even at the sacrifice of justice and all the finer instincts of humanity. This seems to be all that can be offered in defense of court martial sentences. Those imposed for minor offenses should be revoked or modified, but those handed out to traitors, alien enemies and deserters should be upheld however severe.

THE NEW WAY

The Wood mill in Lawrence, which but a short time ago provided an insurance policy to be maintained free of charge for every operative who had been in its employ for six months, has now offered to aid them in procuring homes of their own. The company has three propositions by which the operatives may acquire suitable homes. The first is, that the company shall build the houses in the vicinity of the mill and sell them on easy terms to the operatives. The second that the operative may select the site and plans for the house and the company will advance 75 per cent of the total cost as a loan to be paid on easy terms. The third offer submits that if an insured operative wants to buy a house convenient to the mill, the company will advance a loan of 75 per cent of the assessed value of the property and take a mortgage at 4 1-2 per cent on the property. The only condition in regard to the lot is, that it be convenient to the mill, so that if the purchaser wished to dispose of the property, it would be desirable for another operative. The company apparently is prepared to carry out these plans for aiding the operatives in acquiring homes, through an organization known as the Homestead Association, Inc., which of course, is financed by the American Woolen company.

In taking this step the company again has set an example worthy of emulation by other corporations employing large numbers of operatives. We venture to predict that a company showing such regard for the welfare of its operatives will not be troubled with strikes.

FIGHT AGAINST HIGH PRICES

The people throughout the country have turned their attention to Washington for relief from the high cost of living. If they believe that Washington can pull down the high prices of various commodities to any great extent, they are bound to be disappointed. It may as well be assumed at the outset that the high price level is dependent upon conditions that no power in this country can overcome at the present time.

Congress, however, can legislate to stop the activities of monopolies which thrive upon pushing the prices still higher and the department of justice can bring the profiteers to book for taking undue advantage of the situation. Already congress has put more teeth in the law to enable the department of justice to deal with profiteers in a manner that will deter others from ignoring the penalties, and the various states are also active in hunting down the concerns that load the necessities of life in order to create an artificial famine and extort still higher prices from the people. Already good effects are shown by this co-operation between federal and state authorities and the continuation of the same policy

will doubtless bring a radical change in the near future and probably land some of the profiteers in jail. Nothing short of convictions under the law to prevent profiteering will serve to stamp out the practice and to protect the people from the sharks of various kinds who are ever ready to impose upon the public.

President Wilson and Attorney-General Palmer have promised that this campaign against high prices, profiteering and hoarding, will be pushed to the limit. It can accomplish much more than it has done, but there is a limit to what it can do. At cannot compel the sale of goods under their market value or without a reasonable margin of profit, so that it is not well to expect too much from the action of the government. It will take several years to get the prices back to what might be regarded as normal and in the opinion of some experts the rate of wages now demanded by labor will never swing back to the old figures, and if that be true the prices of commodities will never fall to the old level.

COSTLY INVESTIGATIONS

These congressional investigations into the war expenditures are rather expensive. The republican congress has been in session now for nearly three months and the greater part of its time has been devoted to an effort to dig up evidence of extravagance in the management of the war. Everything that the democratic administration has had a hand in, is to be investigated with a view to getting together some campaign material to be used against the party in 1920.

Attention now is being drawn to the costly character of the investigations themselves. Even if extravagance did rule during the war in many cases it was unavoidable, owing to the imperative rush in which everything had to be done. There was an appeal to eliminate all red tape and to produce results, regardless of the cost. That policy was pursued when necessary during the progress of the war.

But the investigators take no notice of this and even the navy department which won general admiration is to come under the scrutiny of the investigating committees. The charge now is made that in the conduct of these inquiries there is needless expenditure and reckless extravagance. Many sub-committees are at work with full authority to expend money for the general aim of the committee. One committee is sent to France and it will be remembered that General Pershing refused to testify before it, or to be put upon the witness stand by a committee whose honesty he had reason to suspect. Another committee is going to the Pacific northwest, for what purpose is not yet known, and still others have planned tours, but there is a certainty that when these investigations are completed they will have added very materially to the expenditures incident to the war.

There has been some criticism of the expenditure of the delegates to the peace conference in Paris. The bill certainly was larger than might have been expected, but the president states that it is moderate and he is in a position to know. It is doubtful if the same can be said of the bills incurred by this committee in search of political capital rather than honestly devoted to economic government. It may soon be in order to investigate the investigators. They are wasting the time of congress that should be given to the work of reconstruction.

MAN ABOUT TOWN

One of the matters which may be brought up at the next meeting of the local post of the American Legion, or at least, at one of the meetings in the near future, is the proposition to hold a "Legion day" in the nature of a general celebration to give the public at large an idea of what the organization is and what it is aiming to accomplish for the former service men. One of the officers of the post tells me that a number of other cities are planning such an affair and in most instances it is to be held on Nov. 11, the anniversary of the cessation of hostilities. A parade would be one of the big factors of the observance to be followed by other features for the veterans of the world war. Although Lowell has had her share of celebrations in the past few months, there is some agitation for an observance of armistice day and it is probable that the legion will have a big hand in such a celebration if held.

The greatest display of stuttering uncertainty we have yet to witness was staged in dear old Merrimack skid Monday evening. A semi-convertible car rolled in from Central street with the front sign reading "Special." It stopped; the motorman stuck his head out of the window, lamped the "Special," drew in his head, reached upwards and grasped the handle which rotates the sign roll and began to reel off the picture. Around and around and around it went. It hesitated for a second on "Westford st." and a handful of waiting passengers

THIS WOMAN FOUND HEALTH

And Escaped an Operation by Taking Lydia E. Pinkham's Vegetable Compound.

Hazelhurst, Ga.—"I have used your remedies for only ten months, and they have saved me from an operation. Before I took Lydia E. Pinkham's Vegetable Compound I was so ill from a female trouble that I was forced to stay in bed for a week at a time with weakness and pain, but your medicine has done so much for me that I am recommending it to all suffering women. It certainly is a great medicine and is a sure road to health for women. You may publish this letter if you like."—Mrs. W. C. LITTLE, R.F.D. A, Hazelhurst, Ga.

Women who suffer from headaches, nervousness, backache, the blues and other symptoms of a functional derangement should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such ailments of women after other medicines have failed.

If you want special suggestions in regard to your condition, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of long experience is at your service, and your letter will be held in strict confidence.

left the curb and approached the car, but hardly had they taken a dozen steps, before the operator was off again on another spin around the circuit. "Navy Yard" caught one man, "Christianity" pulled three women from the sidewalk and in fact a score or more returning holiday excursionists swayed back and forth between car track and curb, throwing caution to the winds as automobiles honked by. And still the several-reel thriller was thrown on the square's screen. At last the man on the front end, called to the conductor for help and between them they maneuvered the pesky thing to the proper sign. Where was the car going? To Boston, or at least south. Perhaps the motorman changed the sign again when he reached High street and went that way.

SEEN AND HEARD

The service men deserve all the honors that are being bestowed upon them.

Few parades ever held in this vicinity had so many beautiful floats as the one on Labor day. All were handsome and the judges must have had a very difficult task in selecting the winner.

The players on the Hingham naval ball club who visited our city the other day made many friends, and all those with whom they came in contact would like to see them pay us another visit.

The residents of the South End will now have a turn at honoring their war heroes. All receptions to date have been pronounced successes and the committees in charge of the coming event aver that it will rank with its predecessors.

Community Kitchens

(Copyright, 1919, N.E.A.)
We have long had community water. So why not community ice? We have even community fire, except that it stifles in price. And we often are given community "gas," when we ask our officials' advice.

We have our community fireman; why not a community fire? We have our community servants who serve us for honor and pure; why not a community scullion, as well as community squire?

Community meetings are common enough, and so are community speeches. We have tried our community dances. Where community picnics are seen bathing, along with community peaches.

We collect our community garbage and ride it in as-to-mob-iles. So why not community kitchens to serve our community meals. Before they become cold and refuse, before they are parings and peels?

And when the community kitchen, run by the community book, will broil a community codfish from out the community brook. Why then the community copper, no doubt, will spoon the community cook.

No doubt the community palate will deem that the dish is delicious. So please do not think my distrustful nor deem my suggestion is vicious. But after community dinner, good Lord! who'll wash the community dishes?

Or perhaps we shall be as the bees are and work in community hives, and eat our community honey to sweeten community lives. But—please no community sweethearts! and please no community wives.

—EDMUND VANCE COOKE.

Economies in Clothing

Mark Sullivan, former editor of Collier's, is much impressed with the economies of Chicago millionaires on clothing. Yet he can teach Mr. Ar-

mour something. He writes in the Tribune:

"Excepting one suit, I have not a piece of woolsen clothing in my possession that is less than five years old. When one of my suits begins to look worn I take it or send it to a tailor I know in Union square, New York. I tell him to turn it inside out. He turns it inside out, puts a new lining in it and sends me home the equivalent of a new suit for a cost that is less than a third of the price of a new suit."

"Senator Medley McCormick of Illinois sent a trunkful of clothes to this tailor and had them turned. He tells me that his experience is the same as my own—that these turned clothes, originally bought before the war began, are better in quality and appearance than any new clothes he can buy now at any price."

"Senator Calder of New York has had several of his suits turned by this same tailor. I told Frank Vandervort of my experience and shot him some of my turned suits, and he asked me the tailor's name and address."

"I am wearing today and have been wearing for the last month, a pair of shoes that I bought in Boston while I was a student at Harvard, more than 17 years ago. They have been resoled five times."

TRUCE OF LABOR IS COMMENDED

N. Y. Federation Says Growth of Strike Habit Invites a National Disaster

Plea Made That Wilson Have Fair Chance to Attack H. C. L.

NEW YORK, Sept. 3.—The recommendation from a committee representing the New York State Federation of Labor that all industrial strikes throughout the United States should at once be suspended and labor in general declare a truce for at least six months in order to enable President Wilson to reduce the cost of living, seems to have been acclaimed with favor and approval, in all parts of the country, as public opinion is shown to be reflected by editorial comment.

The report in part says: "Your committee is convinced that this condition is wrong and cannot be permitted to continue unless we—and by 'we' your committee means not labor alone, but the people of the whole United States—wish to invite a disaster unparalleled in history. The people must be given a breathing spell. There must be a suspension of struggling for class and party advantage. All Americans must bend their backs to the oars and pull steadily against the storm-tossed waters until our boat again rides safely on the placid sea of prosperity."

Agitators to Blame

"As a result of President Wilson's appeal, backed by the attitude of Samuel Gompers, president of the American Federation of Labor, and the leaders of the railway brotherhoods, the threatened railroad strike was averted and the country spared a terrible tragedy."

"On every hand there are strikes and threats of strikes. Most of these disturbances have been provoked by radical agitators, who have not the interests of the toilers at heart, but who seek to promote industrial warfare for the purpose of destroying our present economic system and substituting industrial ownership by the proletariat."

"Fortunately the same leaders of organized labor have, after a short period, succeeded in regaining control of their temporarily rebellious unions and restoring orderly procedure under the laws and rules of the American Federation of Labor."

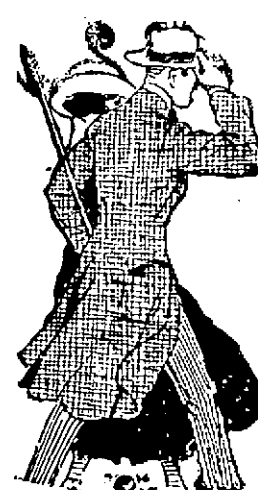

Labor and Nation Betrayed

"The conduct of men who call themselves loyal supporters of trade unionism in breaking away from the authority of their duly elected officials and inaugurating uncalculated, unnecessary and unauthorized strikes should at all times be severely condemned and the agitators who foment such outbreaks should be visited with the severest penalties possible under trade union rules."

"For trade unions to permit themselves to be brought under the influence of lawless agitators at this time of national stress is treason, not only to the principles of trade unionism but to the United States of America. It would not be too severe punishment to revoke the American Federation of Labor charters of such unions and put them outside the pale of decent organized labor."

"Your committee is of the opinion that President Wilson's reasoning is based on sound economic principles and that organized labor owes a duty to the president to give him whole-

hearted assistance in his efforts to reduce the cost of living and place the nation on a strong business basis.

"We owe the president of the United States the same loyal support that we gave him during the war, even though we may suffer from a temporary disadvantage, which after all may be more apparent than real."

PLEA FOR STRIKE TRUCE IS REPUDIATED

NEW YORK, Sept. 3.—James P. Holland, president of the New York State Federation of Labor, has repudiated the report of the committee appointed by him which recommended that labor refrain from participating in strikes for six months as a means of combating industrial unrest and lowering the cost of living.

Asserting that the committee has overstepped its power in making the recommendation, he said he would discharge both members, John F. Pierce and Isadore Epstein. They have been expelled from the Garment Cutters' union, according to a union official, for acting in a manner "detrimental to the interests of the organization."

TO FINISH ROAD BEGUN IN 1820

WASHINGTON.—A project filed with the bureau of public roads contemplated the completion of the old national road which was begun in 1820 to extend from the Potomac to the Mississippi. Its western limit is the Indiana line and the plan is to carry the road through to St. Louis.

RED CROSS SEALS

Red Cross seals, the little stamps which are sold each Christmas to aid in the fight against tuberculosis, are to be sold this year to big firms and factories throughout the country attached to envelopes according to the announcement made by the National Tuberculosis association.

This is a new departure in health education, but through it, all December bills from department stores, factories, mail order houses and other large concerns, together with all of their regular correspondence, will be messages of health to everyone who receives them.

The seal, with a health slogan, will be printed on the back flap of the envelope. Orders for the envelopes are coming in to the headquarters of the health campaign, 124 East 28th street, New York, rapidly, and it is evident the plan has met with the enthusiastic approval of all big users of envelopes.

This year the seals are dark blue and green, with a picture of Santa Claus going down a chimney into a home carrying the message "Merry Christmas and a healthy happy New Year."

Englishwomen have voted for the last 50 years in city elections.

TAKE HEED WHEREWITH WE SHALL BE VEILED!

BY BETTY BROWN
NEW YORK, Sept. 2.—"Sonnet" and "Pam" are the latest in the line of veils. These are just a few of the names that have been drawn upon to designate the new veils that fashion has approved for autumn.

They are all wonderfully attractive, each is a real novelty and each of the above at any rate was especially designed with a view to emphasizing some particular phase of characteristic feature of facial beauty.

"Pam" for instance, is expected to have an affinity for the square type of face and to provide a fitting screen for large eyes and large mouth, providing and this is important, the lips are smiling ones. "Pam" positively is not for snobs or frowns for the large diamond-shaped of the pattern save to frame these features individually, making of each a separate picture. The fine mesh, however, in contrast to the heavier lines has a tendency to soften the outline of the features in general and cast a becoming haze over the complexion.

So, then, if the complexion is not quite all that one's complexion should be, "Pam" makes believe it is.

Then "Sonnet" is irresistible, especially with one of the new "Missy" hats. This veil has a half-inch square mesh formed of double threads with tiny solid squares at the corners. It is a peculiarly practical and durable veil into the bargain.

One of its interesting points is that

breases it hugs the throat with the becomingness of a high stock and then drapes itself gracefully in cape fashion over the shoulders.

This "Sonnet" comes in various color combinations. One of them is a sort of khaki color with a finished top edge and a four-inch border across the lower edge and ends. The mesh is large hexagonal and strong while the border is solid with a perforated pattern which shows up plainly by virtue of a foundation of solid navy blue.

There are several new veils of the "Sonnet" family, most of which are designed for wear with large hats or small and draped or tight. They have a square mesh composed of single threads with here and there a figure composed of filled-in squares. The border, then, is a pretty scroll design similarly evolved by solid squares. It is very reminiscent of the old samples. They are very distinctive, these "Sonnet" veils and bound to become favorite, I venture to say.

VT. BOTHERED BY HAIR TONIC JAGS

BURLINGTON, Vt., Sept. 3.—Because the traffic in hair tonics has grown to an enormous proportion in this city since the demobilization prohibition measure went into effect, District Attorney V. A. Bullard announces that he will give a jolt to the business from which it would never recover.

Seekers of booze have found hair tonics, it is charged, a very satisfactory method of getting results, and are said to have bought in enormous quantities.

Attorney Bullard stated yesterday that he had the data already in his office, and was ready to slam right and left as soon as things are ripe.

Mr. Bullard further stated that government men have been on the alert throughout Vermont, and had the evidence which would block any defence along the lines that the goods were sold for medicinal purposes. The amount sold by some wholesale drug

concerns would make such a defence absurd. The action to be taken in regard to the sale of the so-called remedies for falling hair may also apply to cures for dyspepsia, which contain a large percentage of alcohol.

The booze seekers in Vermont have quickly become aware of the preparations which contain the most alcohol, and have gone after them in droves, with the result that some so-called remedies were sold out long ago.

SOCIAL AND FRATERNAL

Five new members were initiated and several applications for membership were received at the regular meeting of the members of the Ladies' auxiliary, A.O.H., which was held last evening. A list of routine business was transacted and it was announced that plans for the banquet in observance of the 25th anniversary of the organization, which will be held in the near future, were progressing. It was stated that the national president of the organization had accepted the invitation to be one of the speakers at the banquet, while other notable speakers will also be secured for the occasion. The delegates, who

recently attended the state convention rendered a very interesting report of the doings of the convention.

LOWELL AERIE, F.O.E.

An interesting meeting of the members of Lowell aerie, F.O.E., was held Monday night in their hall in the Harrington building, Central street with Worthy President David J. Hackett in the chair. Fifteen new members were initiated and 12 applications for membership were received. A report from the grand aerie convention at New Haven showed that the entire membership of the Eagles throughout the country is more than 600,000 with Lowell in eighth position.

The committee in charge of the coming outing reported that everything is going along smoothly and that it is expected that the event, which will be held at Willow Dale will be one of the best in the history of the organization. It is expected that several state officers will attend the picnic.

INTERESTING WAR TALK BY REV. FR. FORTIER

Standing room was at a premium at the C.M.A.C. hall last evening when Rev. Fr. Fortier, O.M.I., of Ottawa delivered a lecture on the world war. The distinguished clergyman and soldier came to Lowell as the guest of the Oblate Fathers of St. Joseph's parish and the general committee in charge of the welcome home celebration for the local, French-speaking soldiers and sailors, which was held Monday. He delivered the sermon at

United States by enemy propagandists that the men were dragged before going over the top and said the only stimulant the men got was a glass of rum, and that only after 24 or 36 hours of continuous service. The lecturer used a blackboard to illustrate his talk and his address proved both interesting and instructive. He chalked the strategic advances and retreats of allies and enemy, the construction of the trenches of both and the positions of the fighting units and reserves.

Fr. Fortier went through the inner history of the ranks and told of the work of every department from the general to the private soldier and paid a glowing tribute to the Canadian soldiers. He described the balloon observation work, the taking of pictures and the plotting of maps and related some of the hardships of the war. The speaker was introduced by Rev. Eugene Turcotte, O.M.I., pastor of St. Joseph's.

AMUSEMENT NOTES

Below is what the press agents of the different theatres say of the current attractions and of others to come.

THE STRAND

Today offers the last opportunity of seeing Dustin Farnum in his latest, and by many considered his best picture, "A Man's Fight," in which the star reflects his versatility in better and more pleasing advantage than ever before. Then there is Gladys Leslie, one of the recent stars in Finland, in her latest picture offering, "The Girl Woman." The usual comedy and of exceptional value, "The Pony Conqueror," will be shown this week, when Robert Carr, Jr. jumped to the front over Walter Sheehan. It's getting mighty interesting.

Beginning tomorrow and continuing throughout the remainder of the week will be seen the great Japanese favorite, Sessue Hayakawa in "The Man Beneath," and fascinating Viola Dana in "Satan Junior." There will also be a new comedy and weekly. Remember that Douglas Fairbanks in "His Majesty, the American," will appear week of Sept. 12.

B. F. KEITH'S THEATRE

"Late for Rehearsal," which is Emily Dale's title for her perfectly timed monologue at B. F. Keith's theatre this week, is funny every minute. Miss Darrell has struck a vein of comedy that is all her own. Eva Taylor & Co., do some very quick playing. The piece, which is the work of Lawrence Grattan, demands very fast action. Two unconquered good dancing and singing boys are Fuley O'Neill, and the Canton trio give Southe and Tobin some interesting magic, and the Five Princeton Girls sing and play violins.

LOWELL OPERA HOUSE

Crowded houses at every performance are a big advance sale of tickets for the remaining presentations of the week, demonstrate very effectively the fact that the new Emerson Playhouse is winning general favor with the theatre patrons of Lowell and vicinity in their formal opening of the fifth season of stock here. "The Cousin," the vehicle of introduction in which the members of the company are presented to the local theatre folk, is a decidedly good selection, for it offers rare opportunity

Healthy people are happy people—

BOYS at seventeen who dash about, exhaust their young bodies—an added strength given to their food helps make them cheerful, full-blooded, hearty smilers. If your boy is nervous, pale and irritable, try

BOVININE

The Food Tonic

for six or eight days—see him change.

No, BOVININE is not a Medicine but a tissue and blood-feeding body-builder and food tonic—used with great satisfaction by three generations—first prescribed in 1877.

Taking BOVININE regularly for at least a week as directed on the label, will make a noticeable change in any member of the family who has not been feeling well lately.

Since 1877 BOVININE, the Food Tonic, has been known and recommended by physicians everywhere. Your druggist has it.

THE BOVININE CO., 75 W. Houston St., New York

for each and every one of the engaging cast to reflect evidence of ability. Miss Fields, the leading woman, and John Meehan, the leading man, are seen to particular advantage, and their support could hardly be improved. Miss Fields' dramatic endeavors, in the third act particularly, are praiseworthy, while Mr. Meehan's treatment of the role of the stiff, slow-thinking Englishman, is commendable. Miss Knowles, Mr. Crane and the others are all deserving of special mention. The piece is staged remarkably well, quite on a par with anything that stock has produced in these parts in seasons. Tickets for the remaining performances should be secured early to avoid disappointment. Matinees daily excepting Friday.

ASST. CITY CLERK AT SALEM, WOMAN

SALEM, Sept. 3.—Miss Martha Otis Howe has accepted the position of assistant city clerk, filling the vacancy caused by the resignation of Miss Mary W. Reeves, who held the position 27 years.

Miss Howe served for 12 years as clerk in the city clerk's office and later for a long period filled the position of secretary to the school committee. Miss Reeves is the daughter of Mrs. Mary E. Reeves, widow of Robert

SKUNK FINDS H. C. L. AT HOME OF PASTOR

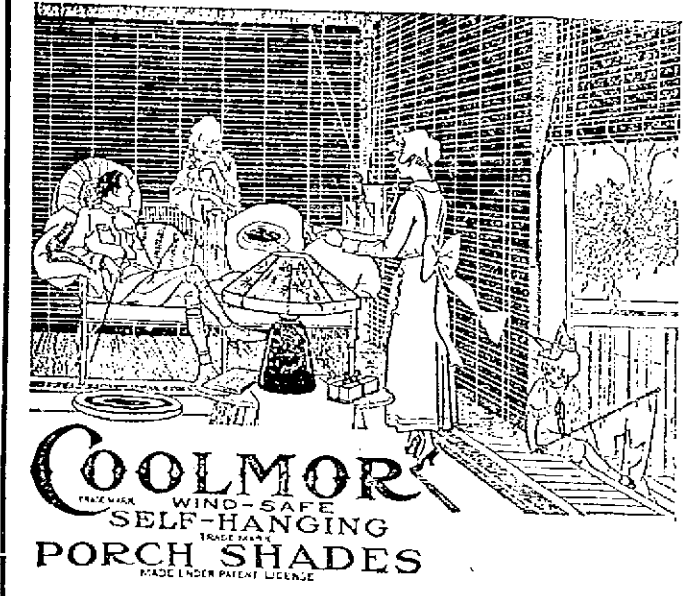

FRANKLIN, N. H., Sept. 2.—Rev. Carl D. Skilling, pastor of the Congregational church, returned from his vacation yesterday and found that a skunk had entered the parsonage cellar during his absence.

Armed with a shotgun he went down to kill the skunk, firing at the animal and then approaching only to learn that the visitor had died of starvation, and was dead when he fired.

TAPPED SHOW'S TILL GIVEN 18 MONTHS

RUTLAND, Vt., Sept. 3.—Frank Smith yesterday sentenced in Rutland county court to 18 months at the Vermont state prison at Windsor for stealing some \$300 in silver coins, belonging to John Dines, proprietor of Dines' Show of Freaks.

Smith, who is only 20 years old, will begin serving his sentence immediately. He admitted his guilt.

LENGTHEN WORLD SERIES CINCI IRON MEN PROVE RIGHT TO FLAG

National Commission Proposes Increase to Nine Games Instead of Seven

CHICAGO, Sept. 2.—Because of the unprecedented demand for world series tickets this fall the national baseball commission yesterday recommended that the series be increased to nine games instead of the usual seven.

The proposal was sent last night to the club owners of the American and National leagues for immediate ratification.

Under the proposed plan, the players of the rival clubs would share in the receipts of the first five games instead of the first four, as in previous years. The victorious team would have to take five of the nine contests to win the championship.

Heretofore the championship was decided when one of the clubs won four of the seven contests. The players would divide their apportioned share of the five-game receipts on a 60 and 40 per cent basis, 60 per cent going to the winning club.

August Herrmann, chairman of the commission, explained that the recommendation was made for no other reason than to benefit the public by permitting a larger number of persons to see at least one of the games. Although the Cincinnati club has not clinched the National league flag, Chairman Herrmann, who also is president of the Reds, said he had received 25,000 applications for seats.

"There are more than 100,000 persons in Cincinnati who want to see the series and it will be an impossibility to accommodate a third of them under the seven-game plan," he said.

The city is baseball mad. It seems that the entire south is planning on coming to Cincinnati if we are so fortunate as to win the National league flag.

Chairman Herrmann announced that plans for the series would not be made until the pennant races are definitely decided, which probably will not be for 10 days or two weeks.

Club owners of the National and American leagues will not draft star players from the minor leagues this fall. This was decided last night when the national baseball commission recommended that the privileges of the draft be suspended for 1919 because of the "uncertainty now existing" between the major and minor leagues of the country.

The commission ruled, however, that the major league clubs be permitted to continue the purchase of players. If suitable arrangements could be made with the minor league clubs.

BECKETT WINS

Knocks Out McGorty in 17th Round—Fulton Lands

LONDON, Sept. 3.—Joe Beckett, the British heavy-weight champion, knocked out Eddie McGorty of Oshkosh, Wis., in the 17th round of their scheduled 20-round fight here last night.

Fred Fulton, the American heavy-weight, battling at the Olympia last night, knocked out Arthur Townley of Southampton in the first round.

TODAY'S EVENTS IN EUROPE

U. S. MINISTER TO POLAND

HINGS REPORT TO PARIS

PARIS, Tuesday, Sept. 2.—Hugh Gibson, American minister to Poland, arrived in Paris tonight from Warsaw, to confer with the American delegation at the peace conference on Polish affairs. He said the commission headed by Henry Morgenthau, which is conducting an inquiry into conditions in Poland, would complete its work in about two weeks.

BOLSHEVIKI LIKED, ARE

NOW SEEING FOR PEACE

LONDON, Sept. 3.—Anti-Bolshevik forces occupied the southern outskirts of Kiev today, according to a wireless despatch sent out by the soviet headquarters in Moscow and picked up here. The despatch states that the fighting is proceeding. The Russian Bolsheviks have proposed peace negotiations, following the rout of their forces, which are surrounded, according to an official announcement received here. The despatch probably refers to the Lithuanian front, where the Bolsheviks were said yesterday to be surrounded and to be offering to make peace.

DENT ALLIES FORCE HUNS

TO BUY OF THEM ALONE

BERLIN, Tuesday, Sept. 2.—(By the Associated Press)—The foreign office has denied the report attributed to the American press that England, France, and Italy have agreed secretly with Germany, that the latter shall procure raw materials and finished products from only those three entente countries. Information has been received from Wilhelmstrasse that "such an agreement is neither in existence nor contemplated," and that the obvious purpose of the report is to scare American business men arriving in Germany in increased numbers to investigate conditions and to resume commercial relations.

KOLCHAK IS FORCED TO

MOVE ON TO IRKUTSK

LONDON, Sept. 3.—A wireless despatch from Moscow reports that Admiral Kolchak, head of the All-Russian government has evacuated Omsk and

BOARD OF HEALTH

transferred his headquarters to Irkutsk.

VENIZELON TELLS WILSON

STILL STRONG FOR LEAGUE

WASHINGTON, Sept. 3.—Premier Venizelos, of Greece, in a letter to the American ambassador at Paris, made public today by the state department, denied reports published in America that he had publicly stated his loss of confidence in the League of Nations because of the American attitude with regard to Thrace. He asked that President Wilson be advised that he had undergone no change of sentiment with regard to the proposed world society.

MADE MONEY IN JULY

For First Time, Road's Business Showed Profit Instead of Deficit

WASHINGTON, Sept. 3.—For the first time in many months, government operation of the railroads in July showed a surplus of a deficit.

Director General Hines announced yesterday that preliminary figures of the month's business indicated net operating income of \$77,000,000. After allowing one-twelfth of the annual rental due the railroad companies the net gain is about \$2,000,000, as compared with a deficit of \$22,031,000 the preceding month, and \$65,000,000 in February, the largest deficit of the year. The net loss to the government for seven months is \$230,536,307.

In calculating the surplus, however, no account was taken of the wage increase offered the shipmen, which has not been accepted by them. It has been estimated that the four cents an hour advance would amount to about \$10,000,000 a year. As it is retroactive, the surplus for July may become a deficit of approximately the same amount.

Mr. Hines pointed out that the falling off in freight business continued to be a big factor in the railroad administration's finances, although business has grown steadily since February. As compared with July, 1918, the decrease in operating income was about 44 per cent.

The freight traffic was about 25 per cent. larger than the average July of the three-year test period, on which the returns to the roads are computed, but expenses were greater. The increase amounting to \$175,000,000 or about 95 per cent. much of it in wages. Passenger traffic also showed a substantial increase.

REGISTRATION SESSION AT CITY HALL, SEPT. 10

The board of registrars will hold the first registration session of the season at their office in city hall one week from today, Wednesday, Sept. 10, from 2 to 4 and 7 to 9 p. m. for persons claiming the right to vote at the coming state primaries, Sept. 23.

Applicants must bring with them their tax bills and naturalized persons their final papers. Registration will also be held on the following dates: Thursday, Sept. 11; Friday, Sept. 12, and Monday, Sept. 15. The hours on these dates will be from 2 to 4 and 7 to 9 p. m. On Tuesday, Sept. 15, registration will be from 2 to 9 p. m. continuously.

The tax books for which the municipal council voted money some time ago will not be published until November, according to the board of assessors. The publication of these books entails considerable detailed work.

The annual convention of the American Institute of Criminal Law and Criminology, which started in Boston yesterday, will be brought to a close this evening. In attendance from this city is Edmund J. Cheney, agent for the Massachusetts Bureau of prisons.

John H. Murphy, treasurer of the Morris Plan bank, Mrs. Murphy and Mr. and Mrs. Frank J. Campbell have returned from a 1200-mile automobile trip through the mountains of New Hampshire, Vermont and New York. The trip was a most pleasant one as the entire distance was covered without the slightest mishap.

At the close of the open air mass, which was held on the grounds of the French-American orphanage in Pawtucket street Monday, the children of

the institution were given a treat in the form of ice cream, cake and tonic, the beverage being supplied by L. F. L. Turcotte, proprietor of the Coca-Cola Bottling company, to whom the little ones are very grateful for his gift of 15 cases of assorted tonics.

Capt. J. M. Caisse, M.D., of Vergennes, Vt., was today the guest of his cousin, Dr. George E. Caisse of Merrimack street. The captain, who saw 14 months of active service in France, first with the Engineers and later with the Medical corps, is now stationed at Camp Devens and expects to be discharged from the service within a few days. His home is in Vergennes, but as soon as he returns to civil life he will open an office at Newport, Vt.

Mr. and Mrs. Theodore Rocheville, the former employed as a janitor at The Sun building, are expecting over the birth of twins, a boy and a girl, which took place at their home, 15 Ina street Saturday.

TWO SLIGHT FIRES

An alarm from box 12 at 5.17 o'clock this morning summoned a portion of the fire department to the corner of Moody and Worthen streets

for a slight fire in the engine of an automobile truck. The damage was slight. At 1.53 o'clock this morning there was a telephone alarm for a slight fire in the coal pocket at the police station. No damage.

Trees which grow on the northern side of a hill make more durable timber than those which grow on the southern side.

To Discard Freckles, Tan, Pimples, Blisters

The use of creams containing animal grease sometimes causes hair to grow. You run no risk of acquiring superfluous hair when you use ordinary mercurized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle—gradually, gently, so there is no detention of the skin and no inconvenience. The discolored complexion naturally is replaced by a clear, smooth, healthy one—full of life and expression. It's the sensible way to get rid of a freckled, tanned, liver-red, blotchy or pimply skin. Just procure an ounce of mercurized wax at any drug store and apply nightly like cold cream, erasing in the morning with soap and water. It takes a week or so to complete the transformation. Adv.

ECONOMIC CONFERENCE

and the Land

WASHINGTON, Sept. 4.—The conference of labor, capital and agricultural interests called by President Wilson for discussion of the economic situation will be held in Washington between October 5 and 10.

The president wrote today to the chamber of commerce of the United States, representatives of the leading agricultural associations, investment bankers and to Samuel Gompers, president of the American Federation of Labor, asking that they submit nominations for delegates representing each group. After receiving this line route to the Pacific coast, the president will then select a list of his own and combine the two. Forty or forty-five delegates will be chosen.

Preliminary arrangements for the conference were discussed at yesterday's cabinet meeting. The full list of delegates will be ready probably within a week.

**SOARING PRICES REACH
BREAKING POINT**

N.E.A. Washington Bureau
WASHINGTON, Sept. 4.

part of the United States the evidence is pouring in that the cost of necessities has reached its high limit and that from now on the decline is to be expected.

All authorities, save a few doubtful

that the end is in sight. A gradual return to normal is hoped for, since anything abrupt would carry the market back to the verge of panic. Prices may not return

Public's Attitude Big Factor

Credit for bringing about this hopeful condition is widely distributed.

public's disposition to combat high prices, and not to be intimidated by threats of further increases, has

"The reports we receive from parts of the country are that prices are beginning to decline," said Attorney General Palmer. "Probably

decline is not sufficient yet to be appreciable to the average consumer but I believe it soon will be."

Here are some of the signs marked improvement:

Chicago reports a drop in whole prices which began with pork, after other meats and spread to grains, vegetables and fruits.

Shoe manufacturers announce

Wholesale dealers in shoes and clothing in New York are co-operating

Holdings of dry goods are being leased and wholesale prices are rapidly affected.

Fig iron, the price of which is especially significant, is \$4.80 cheaper per ton than a year ago.

The turn of affairs abroad, with declines in prices already well established, will have an increasing effect on American markets.

The Guaranty Trust company of New York issues a statement in which it says:

"Accumulated evidence gathered by competent observers leaves now

in the economic state of the world was passed some time back and whatever may be the temper of the present moment, from this time

ALIENS LOYAL OR SENT TO HOMES

American Bar Association's Head Opens Hub Convention With Speech Today

Patriotism and Greed of Capital and Labor Discussed by George T. Page

BOSTON, Sept. 3.—The need of Americanization of the foreign population of this country, better education of the native born residents in the meaning of government and harmonizing of the interests of capital and labor, was emphasized by George T. Page of Peoria, Ill., president of the American Bar Association, in his address at the opening session of the association's annual convention here today.

"We must take up intelligently," he said, "and with courage and determination, the seemingly impossible tasks that are all about us, and reconstruct and readjust the broken and disturbed condition of things, produced on the one hand by war, and on the other hand by what seems to be our utter disregard of some of the fundamentals necessary to establish and perpetuate a democratic form of government."

He characterized as a "most dangerous difficulty" the fact that lack of Americanization work had left most of the great body of foreigners in this country "wholly incapable of even becoming students of our form of government."

Mr. Page declared that the immigrants should be taught that they have no right "to place America and American institutions second to any other nation or proposed nation on earth" and that an immigrant incapable or refusing to become American

should be "driven back to the country from which he came."

"To make a real democracy there must be surrender, compromise and service by everybody. That condition never will exist while we have, as we do have, large bodies of men who have and use the power of money to influence and mold for selfish purposes to a large extent the destinies of our nation, either through the government or in spite of it."

Mr. Page asserted that the practices of party politics destroyed the confidence of the people "in public institutions, in government itself and in public men charged with the administration of party affairs." This, he added, "spoils lack of confidence in law and order and breeds anarchy and riot."

He reviewed the conflict between capital and labor in this country, and said:

"It is the belief of the people of this country that neither capital nor labor cares much what happens to anybody other than themselves."

In conclusion he expressed confidence that "the American people will keep their heads cool and their feet on the ground, and that wise counsels will prevail not only through present difficulties, but through every year yet to come; that they will learn that liberty to be had must be lived, and that it can only be won and kept for a nation by a people who are willing to and who do individually 'live moral and unselfish lives.'"

MATRIMONIAL

Mr. Gardner George Hill of this city and Miss Ethel Mary Smith of Reading, were married Monday evening at the home of the bride's brother, Mr. Fred F. Smith, 83 Salem street, Reading, the officiating clergyman being Rev. D. A. Newton of the Congregational church. The best man was Mr. Melvin Eastman of Boston, while the bridesmaid was Misses Arville Smith of Calais, Me., and Gladys E. Shaffer of this city.

Stickman—Yates

Mr. Edward Adams Stickman of Saginaw, Me., and Miss Frances Yates of this city were married Aug. 30, the ceremony being performed by Rev. A. W. Shaw of St. Anne's church. The bridesmaids were Misses Arville Smith of Calais, Me., and Gladys E. Shaffer of this city.

FOUND NOT GUILTY OF MANSLAUGHTER

Found not guilty of manslaughter in connection with the death of Vincenzo Matellasso, 28, of Lowell, John F. Sharkey was ordered discharged by Judge Enright when his case was called on continuance in police court today. Matellasso was struck by an automobile driven by Sharkey on Central street June 17 and almost instantly killed.

The inquest report made public today by Judge Pickman on the death of Matellasso finds that "the death of Matellasso was not caused or contributed to by the criminal negligence of John F. Sharkey or any other person or persons."

The cases of Joseph McCarthy of Cambridge and Joseph La Farge of Ashmont, who are held in \$2000 and \$500, respectively, by the local court, charged with stealing an automobile, the property of Dr. John H. Donovan, on July 28, which has since been recovered, were called on continuance today, and a further continuance granted until Sept. 11. Both young men have pleaded not guilty.

A fine of \$100 was imposed in the case of Archie Tessier, who pleaded guilty to a statutory charge. He appealed and was held in \$300.

Louis Demang, the young man arraigned yesterday on the charge of stealing a pair of shoes from Oswin S. Bumpus, with whom he was alleged by the police to have bunked one night recently, was found guilty and fined \$25.

For drunkenness, Peter Rusik was given a three months' jail sentence. He appealed and was held in \$200.

DEATHS

KEEFE—Andrew L. Keefe, a well known resident of St. Margaret's parish and for many years in the grocery and provision business on Broadway under the firm name of Keefe Bros., died last night at his home, 322 Stevens street, aged 49 years. He leaves two sons, John J. and Joseph L. Keefe, and one brother, Dennis Keefe.

SMITH—Mrs. Mary E. Smith, a well known resident of this city, died this morning at St. John's hospital after a brief illness, aged 44 years. She leaves to mourn her loss her husband, John E. Smith, and one son, John R. Smith. The body will be removed to her home, 20 Fred street, Wednesday afternoon, by Undertaker William A. Mack.

QUEBEC—Mrs. Mary E. Quebec, aged 72 years, died today at the home of her son, Henry A. Quebec, 9 Woodbury st. She leaves four sons, George M., Chas. A., Calvin E. and Henry A. Quebec, and a daughter, Mrs. O. P. Robbey.

FUNERALS

CHAMPAGNE—The funeral of Mrs. Octave Champagne will take place Thursday morning at 9:30 o'clock from her home, 511 Moody street. Solemn high mass of requiem at 9 o'clock at St. Jean Baptiste church. Funeral arrangements in charge of Undertaker Napoleon Boudreau.

SMITH—The funeral of Mrs. Mary E. Smith will take place Friday morning from her home, 20 Fred street, at 9 o'clock. At St. Michael's church a funeral high mass of requiem will

be celebrated at 9 o'clock. Burial will be in St. Patrick's cemetery, in charge of Undertaker William A. Mack. (Motor cortege).

ROARK—The funeral of Lawrence Roark will take place Thursday morning at 8 o'clock, from the home of his parents, John and Jennie (Seillon) Roark, 165 Lawrence street. Funeral mass will be sung at St. Peter's church, at 9 o'clock. Burial will be in St. Patrick's cemetery. Undertakers Higgins Bros. in charge of funeral arrangements.

ROARK—The funeral of Mrs. Ellen Roark will take place Thursday morning from the home of her son, Frank J. Roark, 7 Rockdale ave., at 8:15 o'clock. High mass of requiem at St. Patrick's church at 9 o'clock. Interment will be in St. Patrick's cemetery. Undertaker Peter H. Savage in charge of funeral arrangements. Motor cortege.

POLLARD—The funeral of Mrs. Grace L. Smith Pollard will take place

Thursday morning at 8 o'clock from her home, 211 Pleasant street. Burial will be in St. Michael's church, instead of St. Peter's. J. F. Rogers in charge.

KEEFE—The funeral of Andrew L. Keefe will take place Friday morning from his home, 322 Stevens street, at 9 o'clock. Solemn high mass of requiem at St. Margaret's church at 10 o'clock. Interment will be in St. Patrick's cemetery. In charge of Undertaker Peter H. Savage. Motor cortege.

QUEBEC—The funeral of Mary E. Quebec will take place Friday morning from the home of her son, Henry A., 9 Woodbury street. Requiem mass will be sung at the Notre Dame des Lourdes church. Time to be announced later. Funeral under the direction of C. H. Molloy Sons.

"OH, HOW I HATE TO GET UP IN THE MORNING"

If Mr. John R. Power of 416 Merrimack street, Lowell, Mass., the well known loom fixer, did much singing, he would probably have specialized in that song, depicting the comforts of bed, for Mr. Power felt just that way for six months before trying Goldine. He said: "I couldn't sleep well and when I did sleep, it didn't seem to do me any good. I could hardly get out of bed; I felt like lying there all the time. Also had rheumatism that made my legs and shoulders sore and cramped. At times I could hardly get out of my chair but since taking Goldine, that trouble is all gone. I sleep better and feel rested when I wake up."

I eat good now and feel fine. I used to get home from work so tired I would go right to bed but now I go out to a show in the evening. Goldine is good medicine.

Remember, GOLDINE is sold in Lowell by Carter & Sherburne, F. H. Butler & Co., W. F. Coisne, J. E. Howard, Wm. B. Kiernan, Frank E. McNabb, Wm. H. Noonan, R. F. Webster, Frye & Crawford Co. It is also sold by Roland G. Wright in Billerica, John S. Westwood in Chelmsford, Conant & Co., in Littleton, Edward A. Woodside in Wilmington and dealers in Ayer, Westford, Dracut, Tewksbury and other towns. If your dealer does not carry GOLDINE in stock, have him secure it through the Lawrence Drug Co.—Adv.

BLAMES VAMPIRE

FOR HIS DOWNFALL

A vampire was the cause of it all! So said one of the defendants in police court today. She had lured him on with her protestations of love, made him forget even his wife and children—in fact, she and she alone was to blame for everything that had happened.

"Everything" in this case was the fact that his wife, tiring of trying to support herself and children unaided, while hubby and the aforesaid "vampire" were living in another town, had caused a warrant to be sworn out for his arrest, which resulted in his appearance before Judge Enright today charged with neglect.

"Yes, I'm guilty, Your Honor," averred the man who had been "vamped." "Guilty, and I'm thoroughly ashamed of myself. But the woman was to blame for it all."

"How was she to blame?" queried the court.

"Well, Judge, she pulled me away from my wife and family. I just couldn't resist her, that's all. She led me on and on and then she threw me down. But I'll get even with her yet and—"

"Now about supporting your wife and family—" began the court.

"She's a rascal!" broke in defendant. "An absolute rascal, Your Honor. She led me on. She's a bad one, and I can prove it. Why, she—"

"The question is, if your wife is willing to take you back will you support her as you should?" asked the court.

"I will, Judge, sure I will. And I'll get even with that woman, too! Time and again she gyped me—time and again. And I'll—"

"That's enough," ordered the court. "Six months in the house of correction and suspend the sentence, Mr. Clerk." And that ended the story of the vampire.

CARD OF THANKS

The undersigned wish to express their sincere thanks to their many friends who by their words and acts of kindness helped to lighten their sorrow in their bereavement in the loss of their beloved brother and uncle.
